

# ZENO Imaging is on CLOUD NINE with Recent Acquisition of Global Services

---

/EINPresswire.com/ Zeno Imaging, a leading provider of hardware and software solutions designed to fit business processes, [Document Management](#) & Business Automation, and [Managed Print Services](#), today, announced that it has completed the acquisition of Global Services, an industry leader in printing and document management solutions. This strategic move accelerates the expansion of the [IT Managed Services](#) business, inclusive of an impressive suite of Cloud technologies, as well as, further enhances Zeno's partnerships with industry leaders such as, Canon, Ricoh, HP, and Kyocera, in providing customers with an extensive product line offering digital solutions. By integrating the scalable business model of Global Services with Zeno's extensive sales and service footprint, customers will be able to count on a single source for an extensive range of essential products and IT services --- ranging from Document Management & Business Automation (an end-to-end solution for capture, repository, workflow, integration), and Managed IT Services, to industry-leading Multi-Function Devices, Managed Print Services and Mobile Print Solutions. "I'm very energized about our future, this is an exciting time for us", said Byron Simpson, President of Zeno Imaging. "We intend to deliver unmatched value along with customer-centric innovation"

"As the printing and imaging industry continues the transformation toward a more services-lead model, it is imperative for market players to integrate more IT-related solutions as part of a comprehensive product/services package," said Tom Frederick, CEO of Zeno Imaging, "Zeno's progressive thinking and strategic play to acquire Global Services broadens the range of essential IT service offerings with an already well-established roster of printing and imaging solutions. This acquisition puts Zeno Imaging and Zeno Solutions in a solid position to capitalize on this market's transformation."

## About Zeno Imaging
