

Modelles Magnifique Training School

/EINPresswire.com/ Who We Are:

The first training school for models in the Caribbean.

Our major objective is to effectively train, sensitize and educate young persons between the ages of 16 – 30 with the necessary tools needed to enter, survive, work diligently and ultimately be successful in the modelling industry, both regionally and internationally. Our course outline has been thoroughly researched and smartly put together into a fun, exciting, easy yet educational package that would give the potential model an edge over amateur models and would prepare them businesswise before signing up with an agency.

Our mission is 'to be the premier training facility for potential talent by empowering and educating them in various subject areas which are essential to survival in the modelling industry, beauty and the arts, whilst fostering a comfortable learning environment which includes practical educational activities with a faith based foundation. We aim to train persons to be disciplined, hard working and successful individuals in the relevant industries where they desire to achieve their goals and realize their dreams'.

We offer a 'Model Elite' Course which includes eight modules that cover all aspects of the industry that is covered over a period of 12 weeks, where there is intense training in both theory and practical subjects. The subjects run as follows:

- Model 101 – this course outlines everything a model needs to know in order to survive and be successful in the industry.
- Image Development – this covers the model image; how to create and maintain it. It can be broken down into Wardrobe Management, Skin/Health Care and Make up Application.
- Communications – this teaches the model how to speak fluently, effectively and with respect. Trains them for voice overs, commercials, and teaches them valuable lessons on eye contact, how to partake in an interview and how to ace a 'go see'.
- Fashion Performance and Runway Skills – this teaches the model how to walk in heels (and dress shoes for men), the rules of runway, the rules of backstage, what a model must carry to a showcase, amongst others. A step by step lesson in Caribbean Fashion Performance and International Runway Skills.
- Essentials of Still Photography – this teaches the model how to pose with natural body

movements, what a photographer expects and how to be natural for a video shoot of any kind.

- Showcase Management – this teaches the model how to plan and execute a fashion show from start to finish.

This school was founded in 2011 by Ms. Vanetta Phillip, a young lady who was trained under the auspices of the dynamic Mr. Richard Young of Mannequins Image Management Caribbean, Trinidad and Tobago. With twelve years of modelling experience, coupled with intense research, a solid course was put together, which is effective in its own right.

The cost of the full course per model is US\$400.00 which includes text books, shipping and handling. Text books on each module will be printed to accompany the course.

At the end of the Model Elite Course, models will receive a full make up kit complete with brushes (ladies) and a grooming kit for men, a full length portfolio with Comp Card and of course their Certificate of Completion.
