

New And Unique Discount Hotel Website Offers Something New

/EINPresswire.com/ With so many hotel websites and travel clubs out there on the internet today, it becomes time consuming for many travelers to find the biggest bang for their buck when it comes to finding that perfect hotel. Launching next week, the unique Takatrip.com offers its customers a simple to use website with big discounts on many hotels across the United States and Caribbean.

Many have encountered it before with their travel plans. They sit on the internet for hours at a time comparing prices across several different hotel websites, looking for the cheapest nightly rate possible while at the same time trying to put themselves comfortably into a four star room. With Takatrip.com, searching for hours online for your perfect hotel is over.

The Takatrip website offers its customers a free membership which then grants them exclusive access to their Takatrip hotel network. Once a part of their network, members search for a hotel for their destination point and purchase a prepaid Takatrip club voucher coupon at a pre-set discount. What makes Takatrip different from other travel and hotel websites is that they give their customers more control over the hotel experience.

Many websites out there offer significant discounts on nightly hotel rates, but at times don't allow their customers the choice of where they will actually stay. These same hotel websites can also make it difficult for the customer to alter their initial reservation made through a website due to a last minute change in travel plans or emergency.

Takatrip.com eliminates these potential website "middle men" worries by giving their club members the ability to contact their hotels of choice directly after purchase, securing their own reservation date using their Takatrip discount club voucher coupon themselves.

For those planning a family vacation or business trip months ahead of time, Takatrip uniquely offers its members discounts in advance as well. Takatrip club members can purchase their hotel discounts up to six months before their actual travel date, agreeing that their reservations are made within ninety days from date of purchase on the Takatrip website.

The website will offer free memberships from today until late November, and has plans on donating a portion of their sales to charity in the following year. The site currently also provides its membership with information on local things-to-do and trendy hotspots per travel

destination with their blog. For more information please visit the Takatrip website at <http://www.takatrip.com>. The website officially opens its doors to the general public on October 1st, 2012.
