With YouTube Shorts Averaging 200 Billion Daily Views, Keeprix Makes Social Video Downloads Free for Offline Viewing

Keeprix removes download-count limits across 1,000+ supported sites, with up to 8K YouTube downloads and three free streaming downloads per platform.

Keeprix Social Media Downloads Are Free Now

LOS ANGELES, CA, UNITED STATES, August 20, 2026 /EINPresswire.com/ -- Keeprix today announced that downloads from its supported social media platforms are now free, with no download-count limits. The change applies to YouTube, TikTok, Facebook, X, Instagram, Dailymotion and more than 1,000 supported sites, with videos saved as local MP4 or MKV files for offline viewing and other permitted uses.

Social video continues to draw large audiences. In its January 2026 CEO letter, YouTube said Shorts was averaging 200 billion daily views. YouTube also reports that more than 20 million videos are uploaded to the platform on an average day, showing the scale of video creation and viewing on the platform.

“People often turn to free download tools because they just want a quick way to save a video, but the experience can come with intrusive ads, redirects, misleading download buttons or tools that stop working over time,” said Vicky Yueh, General Manager of Keeprix. “We wanted the free option in Keeprix to be straightforward: no ads inside the download experience, no bundled software, and no download-count limits for supported social sites. Users can save videos as local files for a flight, a commute, study, editing or other permitted uses.”

The update includes:

— Free downloads from 1,000+ supported sites: Keeprix now offers free downloads from YouTube, TikTok, Facebook, X, Instagram, Dailymotion and more than 1,000 other supported sites, with no download-count limits.

— MP4 and MKV local files: Videos can be saved as MP4 or MKV files for offline playback on computers, phones, tablets and other compatible devices.

— Up to 8K quality, plus playlists and Shorts: YouTube downloads are available in up to 8K, and other sites like TikTok, Facebook can offer up to 4K. Keeprix also supports YouTube playlists and Shorts.

— Audio and subtitle options: Users can choose from the audio tracks and subtitles with the source video, including their preferred languages.

— 3 free downloads on each streaming platform: The streaming free trial now includes three full downloads on each supported service, including Netflix, Disney+, Amazon Prime Video, Hulu, HBO Max, Paramount+, Peacock and Apple TV+. Previously, users received two free downloads shared across all supported streaming platforms.

No paid plan is required for supported social-site downloads. For streaming downloads beyond the free trial, Keeprix offers plans at $49.99 per month, $99.99 per year or $159.99 for a lifetime software license.

Users are responsible for ensuring that their use of Keeprix and downloaded content complies with applicable copyright laws, content rights and third-party platform terms.
