

Mr. President; Let's Start a Brain Purification Movement; the Correct Route to Brain Education.

/EINPresswire.com/ As far as we are concerned your doors are not open to new ideas; at least not as far as education reform is concerned. You have wasted four great years of your presidency to reform education. You have spent countless hours huddled with your education advisers trying to thrash out the best possible course for education. You have crossed every T and dotted every I in your quest to improve education. Yet there is not much difference in the quality of education we provide our students. The reason why education is still a mess is that we provide education for half the brain. We educate the mind and we not only neglect educating the brain we actually miseducate the brain.

"The difference lies in what each person knows and how he or she makes use of that knowledge." - The Wall Street Journal.

The problem is that our knowledge about the brain and brain education itself is half baked. We are still confused about the true nature of brain education. We try to teach brain/emotional intelligence education but by brain washing. What brain education requires is brain purifying. The brain starts off just like gold ore. Instead of removing the impurities we add more impurities in the form of, 'I am the best' belief etc. So we have all this mess as we force our 'gold ore' to behave/be gold like; it is asking an emotionally challenged brain to behave and be emotionally healthy. It is like trying to get a nitrogen producing machine to produce oxygen.

The difference lies in the quality of what one knows which is determined by two factors: what the mind knows and what the brain is capable of knowing and even more crucial what kind of mind/self the brain is capable of projecting.

It is all about how the brain processes information; information about one's own self, which determines the information about others and the very nature of the reality of life. It all boils down to the quality/purity of the brain. Mr. President let's start a brain purification movement; the correct route to brain education. Lets start with you. Mr. President no one knows you better than we do, at least we know your brain and mind differently from the rest. The human brain is like gold ore where your brain is almost pure gold and let us take out whatever little emotional baggage there still is in your brain. It will purify your life, it will bring pure happiness, get you sound sleep, remove any restlessness, improve your health and above all it will make you a greater president. We need you as the mascot and the very personification of this much needed

movement to purify the brain of all Americans, young and old.

When you failed the 1st. debate we rushed to tell you that your physical brain is tired. We contacted 60+ senators/congressmen, we sent you information through to the White House by email and snail mail. We made sure you knew what went wrong. Look at the benefits you reaped from our feedback. Now the zing is back and your belly is all fired up. Please listen to us again as our aim this time is to start at the top and purify the brains of all Americans. You do not need it but it will be a symbol of what most of America needs.

The majority of Americans are living with emotional baggage in our brains. It is costing us our happiness, our emotional and physical health, it is frustrating our efforts to bring down crime, divorce, drug addictions, greed, unhappiness, sleeplessness etc.. It is creating emotionally challenging behavior at every area of life. We saddle the brain with self education that makes the brain emotionally challenged, which generates emotionally challenged behavior that has a rippling effect on all life and it hurts all America at large.

Brain education is emotional intelligence education but emotional intelligence is still misunderstood in spite of all the progress. Emotional intelligence is a fragrance of the brain. Just like to improve the fragrance of the flower we have to nurture the plant; in order to cultivate emotional intelligence we have to nurture the brain; we have to purify the brain of all emotional baggage. Thus emotional intelligence education is brain therapy.

Also please correct the biggest blunder of your first term. President Clinton is the only one who almost brought about peace in the Middle East. Please give him full and independent charge to negotiate peace between Israel and Palestine.

I have over 1500 articles that cover the major questions of philosophy.
