

Quality Training Systems Announces Its 100th Database Client

/EINPresswire.com/ Columbia, MD, November 29, 2012 - Quality Training Database (QTD™) is now the tool of choice for 100 electrical utility organizations in the US and Canada. Quality Training Database (QTD™) assists our clients in compliance with the requirements of [NERC Standard PER-005](#). QTS is the only Company that has a ready-to-use, comprehensive tool specifically designed to manage and [demonstrate PER-005 compliance](#).

"QTS has devoted over 10 years to the development of QTD™", said Sarah Lutterodt, President and Founder of Quality Training Systems. "We are proud of our product development team and the very robust database tool that they have created specifically for the purpose of demonstrating compliance with the rigorous requirements of PER-005. Quality Training Database is cited by our clients as being the foundation for successful audit outcomes."

About Quality Training Systems

Quality Training Systems (QTS) has provided training and performance support services for electric utilities since 1997. The company's primary focus has been the design and development of system operator training programs and the development of Quality Training Database (QTD™) as a tool to satisfy the rigorous requirements of NERC standard PER-005.
