QUEEN CREEK, AZ, UNITED STATES, September 3, 2026 /EINPresswire.com/ -- APA Total Car Care Joins Automotive Management Network to Sharpen Its Service

QUEEN CREEK, Ariz. — September 2026 — APA Total Car Care has joined the Automotive Management Network, a professional community of more than 15,000 repair shop owners, advisors, and managers. The organization focuses on helping shops run stronger, better-organized businesses. Through the membership, the Queen Creek shop gains access to a wider pool of management knowledge as it continues to refine how it serves customers.

The network provides members with hundreds of shop-management resources, industry benchmarks, and labor-rate and profitability data. It also offers an active peer forum where operators trade ideas on everything from customer communication to staffing. For APA Total Car Care, the value is practical and comes from staying current on proven practices

instead of reinventing them. The goal is to apply what works to the day-to-day experience.

That mindset carries straight into the shop's auto repair and services in Queen Creek, AZ: do the homework, keep improving, and never coast on reputation alone. From oil changes and brake work to A/C repair, engine diagnostics, transmission service, and wheel alignment, the team brings hands-on skill to every job. The business is built to be transparent and easy to deal with.

The commitment already shows in the shop's track record, with more than 35 years of hands-on experience and ASE-certified technicians. It also has five CARFAX Top Shop recognitions and RepairPal Certified standing. Family-owned and women-led, APA Total Car Care has relied on clear communication and honest estimates to earn repeat business across the East Valley. This new membership is one more step toward keeping that bar high.

> Joining Automotive Management Network keeps us learning from the best in the business. The sharper we run our shop, the better the experience for every customer who trusts us with their vehicle."
