

# Let Your Lips do the Talking

---

/EINPresswire.com/ UK (submitpressrelease123.com - press release) The plumpness of skin shows the first signs of ageing, and the mouth is one of the most problematic areas. The focus for communicating and confidence in social situations, thin skin or lines around the mouth can result in the face looking older, and affect self-esteem levels.

Lines and wrinkles around the lips are commonplace amongst smokers, whose habit speeds up the ageing process. However sun damage and environment also play a role in lines and wrinkles becoming more noticeable.

The problem is easily treated with non-invasive [Dermal Fillers](#) by the experts at The Harley Medical Group. Dermal fillers can be used to fill moderate lines or wrinkles; or act as a lip enhancement product. Fillers can give volume to lips, producing a more feminine, pronounced pout, perfect for women who have slightly thinner lips and are looking for more definition.

Technologically advanced man made fillers (such as Restylane and Teosyal) are animal-free and they require no test prior to treatment, whereas approximately 2-3% of people have an allergic reaction to collagen. Professionals at the Harley Medical Group carry out a 28-day skin test before any collagen treatment to ensure that the treatment goes smoothly.

Recovery time is virtually non-existent, meaning patients can easily fit the treatment into their day. Results are not permanent and will break down over time, but can easily be topped up.

Amy Wright, Dermal Filler patient at The Harley Medical Group, says: "I am overjoyed that I finally had dermal fillers done. Years of smoking has significantly aged my skin, especially my lips and around my mouth. Once I kicked the habit I treated myself to fillers and I am delighted with the result - I look years younger, and the results were instantaneous with no side-effects. It is a beauty regime that I will definitely be continuing with."

#### NOTES TO EDITORS:

The Harley Medical Group is the UK and Ireland's largest cosmetic surgery provider, performing more procedures and with more clinics than any other cosmetic surgery group. It has been established since 1983 and is one of the most highly regarded Cosmetic Surgery Groups operating in the UK. It has treated over 500,000 patients to date.

The Harley Medical Group works tirelessly to maintain the highest standards in the industry for the benefits all cosmetic surgery and non-surgical patients. We are currently at the forefront of the campaign to ensure that the Government continues to regulate the use of certain laser types used in cosmetic surgery and [non-surgical cosmetic procedures](#) so that patients are protected from rogue practitioners.

In 2004, The Harley Medical Group's Chairman Mel Braham, at the request of the Department of Health became a member of the department's Steering Committee, set up to oversee the introduction of new regulations covering the entire Cosmetic Surgery sector. All of The Harley Medical Group's clinics are registered with the Care Quality Commission. There are now 31 clinics in the UK and Ireland: London (Harley Street, Wimbledon, The City, Chiswick, Finchley & Watford), Marlow, Birmingham, Leeds, Brighton, Bristol, Manchester, Newcastle, Chester, Nottingham, Southampton, Cardiff, Chelmsford, Dublin, Northampton, Cambridge, Maidstone, Belfast, Reading, Sheffield, Liverpool, Bromley, Glasgow, Cheltenham, Leicester and Guildford.

The Harley Medical Group is renowned for introducing and pioneering most new surgical and non-surgical techniques to the UK and Irish markets. All new treatments and techniques are first thoroughly researched and tested before they are submitted for approval by the Group's Medical Advisory Board.

For more information on other surgical and non-surgical procedures such as [laser hair removal offers](#), visit the website.
