

# Protect, comply and thrive with IT Governance's new international website

/EINPresswire.com/ [IT Governance](http://www.itgovernance.co.uk) has launched a brand new international website, [www.itgovernance.co.uk](http://www.itgovernance.co.uk), offering a unique, single-source provision of products and services for IT governance, risk management, compliance and [information security](#) professionals.

Alan Calder, CEO and founder of IT Governance says, "We are absolutely delighted with the new look and feel of our international website. The proliferation of products and services within our one-stop-shop offering has driven us to simplify navigation and improve presentation of information about frameworks and standards, as well as products and services."

Calder continues, "The website has been designed so that customers from all around the world can easily find exactly what they need, when they go to [www.itgovernance.co.uk](http://www.itgovernance.co.uk)."

IT Governance provides expert information and guidance on many of today's most critical IT-GRC issues, such as information security (including ISO27001, ISO27002 and PCI DSS), IT governance (including COBIT®, ITIL® and ISO20000), [business continuity](#) (including ISO22301) and project governance (including PRINCE®2).

The company is committed to offering only the very best IT-GRC products available on the market. These include the company's own books (published by IT Governance Publishing), toolkits, staff awareness e-learning courses and software tools. Customers will find an extensive range of other books, resources and products published and produced by many of the world's most respected authors and organisations.

IT Governance offers training, consultancy and technical services and has experience of working with organisations of varying size and type, helping them to meet their project and compliance needs.

## NOTES TO EDITORS

IT Governance Ltd is the single source provider for books, tools, training and consultancy for IT governance, risk management and compliance. It is a leading authority on data security and IT governance for business and the public sector. IT Governance is 'non-geek', approaching IT issues from a non-technology background and talking to management in its own language. Its customer base spans Europe, the Americas, the Middle East and Asia. More information is available at [www.itgovernance.co.uk](http://www.itgovernance.co.uk).
