

# Spruce Up Concrete Countertops with 8 New Tips from ConcreteNetwork.com

/EINPresswire.com/ Eight new concrete design tips from ConcreteNetwork.com focusing on concrete countertops help consumers spruce up kitchen and bath counters at home.

ConcreteNetwork.com has created a handy, easy-to-use slideshow featuring eight useful concrete design tips that help consumers express individual styles through their concrete countertop designs. Great for concrete countertops in kitchen and bath areas, these tips cover a range of topics from coloring to sizing.

Concrete countertops are an appealing choice for consumers who want a fully customizable look. Not tied to any one shape, size or color, concrete allows consumers to get creative and display individual style. The result includes a concrete countertop that is both functional and beautiful.

ConcreteNetwork.com has created a helpful slideshow including detailed photos featuring eight tips on how consumers can incorporate personal style into a concrete countertop design. Viewable at <http://www.concretenetwork.com/concrete/countertops/expression.html>, consumers can browse through 17 slides covering color, edge detail, embeds, drainboards, trivets, backsplashes, and sizing for kitchen and bath countertops.

A great inspiration tool for consumers and designers, this slideshow demonstrates just how creative one can be when designing with concrete. For more design ideas and information on concrete countertops, visit ConcreteNetwork.com.

About ConcreteNetwork.com

Established in 1999, [www.ConcreteNetwork.com](http://www.ConcreteNetwork.com) educates consumers, builders, and contractors on popular decorative techniques and applications. These include stamped concrete, stained concrete, concrete countertops, polished concrete, and much more. Over 12.5 million people visited The Concrete Network website in 2011 to research, get ideas, find concrete products, and

to find a contractor.

The site connects buyers with local concrete contractors through its Find a Contractor service throughout the U.S. and Canada, and is fully searchable by more than 20 types of decorative concrete work. Through its Find Concrete Products service, the site provides visitors with a list of decorative concrete manufacturers throughout the U.S. and Canada, as well as local decorative concrete supply stores.
