CommerceIQ Named Finalist in The 2026 A.I. Awards□□

PALO ALTO, CA, UNITED STATES, September 22, 2026 /EINPresswire.com/ -- CommerceIQ, the AI-native retail growth partner helping enterprise brands win discoverability and conversion across paid and organic channels, has been named as a finalist at The 2026 A.I. Awards in the Best Use of AI in Retail and eCommerce category.

Operated by global cloud computing awards body, The Cloud Awards, The A.I. Awards celebrates international leaders driving the next generation of artificial intelligence and machine learning. Now in its third year, the 2026 program saw entries from organizations worldwide, spanning established technology powerhouses to disruptive startups across North America, Europe, the Middle East, and APAC.

The awards highlight transformative advances across the entire AI ecosystem: from core infrastructure and governance to cutting-edge agentic workflows and AI assistants. Special emphasis is placed on practical implementations that deliver measurable value within dedicated operational units and specific vertical markets.

> “As AI changes how consumers discover and choose products, helping brands remain discoverable across paid and organic channels has become a critical challenge.”
> *Rahul Shah, CEO CommerceIQ*

CEO of The Cloud Awards, James Williams, said: “Unveiling the finalists for the 2026 A.I. Awards is a significant moment. With the sheer volume of entry submissions this year, the competition is fierce, and the quality of work on display is extraordinary.

“We look for genuine real-world execution that turns technological promise into tangible outcomes. CommerceIQ and their fellow finalists have exemplified this. Making it to the finals is a remarkable achievement, and we wish everyone the very best as our panel selects the ultimate category winners.”

Rahul Shah, CEO of CommerceIQ said: “We’re honored to be recognized as a finalist in the Best Use of AI in Retail and eCommerce category. As AI changes how consumers discover and choose products, helping brands remain discoverable across paid and organic channels has become a

critical challenge. This recognition reflects our team's work to help enterprise brands navigate that shift and turn discoverability into measurable growth."

The program will now begin its final round of judging, where The Cloud Awards judges will select a winner in each category. A.I. Awards winners will be revealed on October 13.

The program will return to welcome new submissions for 2027, to continue recognizing excellence in artificial intelligence solutions and platforms.

About the Cloud Awards

The Cloud Awards is an international program which has been recognizing and honoring industry leaders, innovators and organizational transformation in cloud computing since 2011. The Cloud Awards comprises five awards programs, each uniquely celebrating success across cloud computing, software-as-a-service (SaaS), cloud security, artificial intelligence (AI), and financial technologies (FinTech).

Winners are selected by a judging panel of international industry experts. For more information about the Cloud Awards, please visit https://www.cloud-awards.com/.

About CommerceIQ

CommerceIQ is the AI-native retail growth partner that helps enterprise brands win discoverability and conversion across paid and organic, driving incremental sales in the AI-search era. As shoppers shift from typing keywords to asking AI what to buy, CommerceIQ makes sure brands' products get surfaced and chosen. Its AI system for retail, Ally, runs paid and organic together, optimizes every SKU across every retailer, and is operated by retail experts and forward-deployed engineers who own the outcome. The agency alternative for the AI era, CommerceIQ works with 2,200+ brands generating more than $40B in sales
