Home-Style Comfort Meets Adventure-Ready Savings With New RV Campers

Discover new RV campers that combine home-style comfort, modern features, and adventure-ready savings for your next unforgettable journey.

Home-Style Comfort Meets Adventure-Ready Savings With New RV Campers

best 2026 travel trailers for families

BOUTTE, LA, UNITED STATES, September 7, 2026 /EINPresswire.com/ -- Bent's RV is highlighting its current selection of new recreational vehicles available through its Louisiana locations in Albany and Boutte. The inventory includes travel trailers and fifth wheels from manufacturers such as Keystone, Forest River, and Prime Time, giving RV shoppers access to different floor plans, sizes, layouts, and onboard features.

New RV Inventory Covers Different Travel Needs

The current selection of new RVs for sale in Louisiana includes units designed around different uses, from shorter recreational trips to longer stays. Travel trailers can provide a more compact towing option, while fifth wheels offer larger living areas, multiple slide-outs, residential-style kitchens, and dedicated bedroom spaces. Inventory changes as units are sold and new stock arrives. Current listings show both 2025 and 2026 models across the two Louisiana locations, allowing shoppers to compare different floor plans before making a purchasing decision.

For shoppers comparing new campers for sale, floor plan and towing requirements remain important considerations. Buyers can review sleeping capacity, dry weight, length, tank capacities, slide-outs, and available equipment for individual units. These specifications help shoppers determine whether a particular RV matches their tow vehicle and intended travel plans.

2026 Forest River Cardinal 35FL

2025 Prime Time Crusader 275RDD

2025 Keystone Cougar 29RKS

The 2025 Prime Time Crusader 275RDD is one example currently listed in the inventory. The fifth wheel features a rear living area, two slide-outs, a king-size shower with seat, a 16-cubic-foot refrigerator, dual air conditioning, a 35,000 BTU furnace, tankless water heating, and a roof-mounted 200-watt solar panel. Another current fifth-wheel example is the 2025 Keystone Cougar 29RKS, listed with a rear-kitchen floor plan, three slide-outs, sleeping capacity for up to four people, a 54-gallon fresh-water tank, solar preparation, and a 50-amp electrical system.

2026 Models Add Expanded Living Features

The 2026 Forest River Cardinal 35FL represents a larger front-living fifth-wheel layout. The listed unit has four slide-outs, a front entertainment area, opposing tri-fold sofas, theater seating, a 16-cubic-foot refrigerator, a king bed, a full bathroom, and preparation for a washer and dryer. For buyers researching the 2026 Prime Time Sanibel 34 Lounge, the model is part of the 2026 Sanibel fifth-wheel line and is offered in the broader RV market as a four-sleeper fifth

wheel. Available model specifications include a 102-inch-wide body, a 54-gallon fresh-water tank, multiple slide-outs, residential-style interior features, and 50-amp electrical service. Availability at individual dealerships can change, so model-specific inventory should be confirmed before publication or purchase.

The 2026 Keystone Montana High Country 373RD provides another example of the larger fifth-wheel category. Its listed configuration includes a rear den, two hide-a-bed sofas, theater seating, a residential refrigerator, three-burner range, solid-surface countertops, a coffee station, fireplace, electric auto-leveling, and a fully walkable roof. For families comparing the best 2026 travel trailers for families, factors such as sleeping capacity, bunk availability, kitchen layout, bathroom access, storage, towing weight, and the number of slide-outs can help narrow the selection. A family planning short weekend trips may have different requirements from one planning longer seasonal stays.

Clearance Inventory Provides Additional Options

Current clearance listings also include new and pre-owned recreational vehicles at the Albany and Boutte locations. The clearance inventory covers different RV categories and includes units with listed reductions from retail pricing. Inventory and pricing are subject to change as individual units are sold. The 2025 RV clearance specials category can be relevant for shoppers comparing model years while newer inventory enters the market. Clearance units may include remaining inventory from earlier model years, giving buyers another group of vehicles to evaluate alongside current-year models.

Recent inventory listings show 2025 fifth-wheel units such as the Crusader 275RDD and Cougar 29RKS alongside 2026 models. This mix gives buyers an opportunity to compare layouts and equipment across model years rather than limiting the search to one production year. The 2025 Prime Time Crusader 275RDD also appears in listings at both Albany and Boutte, although individual stock numbers can have different availability and pricing. Buyers should verify the specific unit, stock number, location, and current terms before making a decision.

Likewise, the 2025 Keystone Cougar 29RKS is listed at the Boutte location with a rear-kitchen floor plan and three slide-outs. Its listed specifications include a dry weight of approximately 8,958 pounds and sleeping capacity for up to four people, making towing compatibility an important consideration for prospective buyers.

Comparing RVs Before Purchase

For shoppers evaluating trusted new RV dealers in Louisiana, a useful comparison should go beyond the advertised price. Buyers can examine the manufacturer's specifications, unloaded vehicle weight, gross vehicle weight rating, hitch weight, cargo capacity, sleeping arrangements, electrical requirements, tank sizes, and included equipment. A model such as the 2026 Forest River Cardinal 35FL is configured for residential-style fifth-wheel living, with a 43-foot-5-inch

listed length, four slide-outs, a king bed, and sleeping capacity for five to six people. Such specifications make tow-vehicle compatibility and campsite dimensions important parts of the purchase process.

The 2026 Keystone Montana High Country 373RD is also positioned in the larger fifth-wheel segment, with a listed length of 41 feet 4 inches and dry weight of 13,399 pounds. Its four-slide configuration and rear entertainment area demonstrate how floor plan design can influence both interior space and towing requirements. For shoppers considering new campers for sale, a walk-through can help identify practical differences between floor plans. Door placement, kitchen workspace, bathroom access, storage, seating, bedroom clearance, and exterior compartments can affect how an RV works during everyday travel.

The 2026 Prime Time Sanibel 34 Lounge is another model shoppers may compare when reviewing larger fifth-wheel layouts. Publicly listed specifications for the model include a 36-foot-10-inch exterior length, four-person sleeping capacity, and 50-amp electrical service. Individual inventory should be confirmed directly with the seller before relying on availability.

RV Service and Parts Add Ownership Resources

Beyond vehicle sales, Bent's RV operates RV service and parts departments at its Louisiana locations. Its service operation lists RVIA-certified technicians and service bays for routine maintenance and more complex repairs. The parts department carries components and accessories for travel trailers, fifth wheels, pop-up campers, and motorhomes. For owners reviewing 2025 RV clearance specials, post-purchase considerations can be as important as the initial purchase. Maintenance schedules, tire care, roof inspections, water-system checks, winterization, and proper towing practices can help owners understand the ongoing responsibilities associated with recreational vehicles.

The 2025 Prime Time Crusader 275RDD illustrates why equipment details matter during ownership. Its listed equipment includes a tankless water heater, dual 15,000 BTU air conditioners, high-capacity furnace, solar equipment, tire-pressure monitoring, and winterization connections. Features can vary by specific unit, so buyers should review the individual stock listing. Similarly, the 2025 Keystone Cougar 29RKS includes features such as electric four-point leveling, solar preparation, a second air conditioner, a 12V refrigerator, and a 50-amp electrical system. These systems can influence routine maintenance needs and campsite setup requirements.

About Bent's RV

Bent's RV is a recreational vehicle dealership with locations in Albany and Boutte, Louisiana. The company offers new and used RV sales, including travel trailers and fifth wheels, along with RV service and parts. Its current inventory includes products from manufacturers such as Keystone, Forest River, CrossRoads, Gulf Stream, and Prime Time. We does not manufacture these vehicles;

it supplies and sells RVs produced by independent manufacturers.
