RICHARDSON, TX, UNITED STATES, September 9, 2026 /EINPresswire.com/ -- O2 Leather has launched its new leather iPhone 18 wallet cases.

Designed for customers who want to carry their phone and essential cards together, the new collection combines wallet functionality with leather-covered protection and MagSafe compatibility.

The collection includes two distinct designs: Prestige and Vero.

The Prestige Leather Wallet Case offers a fully leather-covered design, including the wallet section. Designed for the iPhone 18 Pro and Pro Max, it provides space for up to four cards while maintaining a premium leather appearance throughout the case.

The Vero Leather Wallet Case combines leather-covered protection with a transparent ID window. It also holds up to four cards and is designed for customers who prefer a more functional wallet layout with quick access to an identification card.

Both Prestige and Vero are MagSafe compatible, allowing users to continue using compatible MagSafe chargers and accessories while keeping the case on their phone.

O2 Leather uses full-grain leather in its accessories, giving each leather iPhone 18 case the natural texture and character associated with genuine leather. With regular use, the leather can

develop a patina over time.

"Many customers want the convenience of carrying their phone and essential cards together, but they also want an accessory made from real leather," said Orcun, co-founder of O2 Leather. "Prestige and Vero offer two different approaches, giving customers a choice between a fully leather-covered design and a more functional layout with an ID window."

O2 Leather wallet case combining phone protection and card storage.

The new cases focus on the iPhone 18 Pro and iPhone 18 Pro Max, offering two different approaches to the leather wallet case design. Prestige features a fully leather-covered wallet construction, while Vero adds a transparent ID window for customers who prefer easier visibility and access.

With space for four cards, MagSafe compatibility and leather-covered protection, the new leather iPhone 18 cases are designed to reduce the need to carry a separate wallet while keeping everyday essentials together.
