

Raspberry Ketones - Miracle in a Bottle or Marketing Scam?

/EINPresswire.com/ [Raspberry ketone](#) is a fascinating natural compound that is responsible for the distinct aroma and unique fruity flavour of red raspberries. The powerful enzyme experienced a rapid rise to fame in 2012 after being featured as an effective weight loss supplement on the popular and award-winning U.S. television programme 'The Dr. Oz Show'. Since then, the UK market has exploded with an influx of raspberry ketone [fat burners](#) being released in health shops and online stores on an almost daily basis.

After taking much of the dieting world by storm in 2012, the popularity of raspberry ketone shows no signs of fading and is set to continue well into 2013. In response to this, FORZA has been working hard to produce the most complete bottle of [diet pills](#) ever to be made from a raspberry ketone extract. Unlike many other dietary supplements that use lots of different bulking agents that often pass through the body with zero effect, FORZA has developed a refined fat burner that contains a trio of simple, yet very effective high quality ingredients.

"In order to get the same beneficial effects of the active ketone ingredient contained in each serving of Raspberry Ketone 2:2:1, you would need to eat a whopping 200kg of fresh raspberries every day! We are proud to have produced a 100% natural raspberry ketone extract, which aims to increase metabolism, accelerate fat breakdown and promote all day thermogenic fat burning. Our premium slimming solution also utilises the energy-boosting effects of pharmaceutical grade caffeine and the phenomenal anti-aging effects of resveratrol."

Lee Smith – Managing Director, FORZA

Initial feedback from the latest set of trials has indicated that FORZA Raspberry Ketone 2:2:1 is an overwhelming success among customers. Positive responses range from successful weight loss to enhanced cognitive function and some subjects even reported that they could actually taste the luxurious scent of fresh raspberries in the back of their throat when swallowing the capsules.

FORZA Supplements has been an established sports nutrition and diet capsule manufacturer, wholesaler and retailer since 2007, holding over 15 trademarks and distributing worldwide from its Kent-based technology centre. Full site: www.forzasupplements.co.uk
