MosChip® to showcase its full-stack Engineering Services from Silicon to Intelligent Systems at SEMICON India 2026

HYDERABAD, TELANGANA, INDIA, September 9, 2026 /EINPresswire.com/ -- MosChip® Technologies will participate in SEMICON India 2026 to showcase its spectrum of capabilities across Silicon to Intelligent Systems - spanning Turnkey ASIC, Silicon Design, IP Services, Hardware Design, Embedded Software, IoT, and AI solutions. MosChip will spotlight its engineering expertise across advanced technology nodes, chiplet architecture design, packaging, test, and production workflows, delivering first-pass success to its customers across the globe.

With deep technical expertise in varied industry domains, MosChip empowers global customers to accelerate the time to market for analog and mixed-signal silicon solutions.

Event Details:

What: At SEMICON India 2026, MosChip will demonstrate its silicon-to-systems engineering achievements and capabilities, including:

- RTL/Netlist to Silicon - Turnkey ASIC Services for multi-billion gate designs in advanced nodes for domains viz. Edge AI, Satellite Navigation, HPC, Consumer, etc.
- Application-specific ICs and boards developed by MosChip catering to various industrial domains.
- Live demonstration of VIDYUT100 - Indigenous Smart Energy Meter IC for next-generation energy infrastructure, designed and developed by MosChip from Spec to Silicon, along with indigenously developed Software. It integrates the DLMS/COSEM communication stack and showcases real-time electricity metering, data acquisition, and standardized communication for smart energy applications.
- Live demonstration of MosChip ProductXcelerate™ Blueprint: Matter-enabled Home

Automation Bridge - A Pre-validated reference design accelerating productization. It is based on the Infineon platform, MosChip's GenAIoT and AgenticSky solution accelerators, and represents MosChip capabilities from Hardware to Embedded to Platform Management, Connectivity, and Agentic AI.

Who: Available for media interactions and customer briefings:
- Srinivasa Kakumanu - CEO & Managing Director
- Manoj Nagesh - Director, Business Development
- Technical Leaders from the Silicon & Product Engineering Divisions

When: 17 - 19 September 2026
Where: Yashobhoomi (India International Convention and Expo Centre), Dwarka, New Delhi, India

About MosChip® Technologies
MosChip® Technologies is a trusted partner to leading global enterprises and technology innovators. Our silicon and product engineering services, backed by over 25 years of expertise in Turnkey ASIC, Silicon design, IP services, hardware engineering, embedded software development, cloud computing, and AI solutions, empower clients to develop next-generation intelligent products that drive industry transformation.
