

SKYTEX to Announce Imagine ST7600IR Tablet with Universal Smart TV Remote Control Capability at CES

/EINPresswire.com/ [SKYTEX](#) Technology will announce at CES its new IMAGINE ST7600IR dual core Android 4.1 tablet with [universal smart TV remote](#) control capability that both learns remote functions and has 100,000 codes in its large database. The tablet accommodates 4 home theater devices.

Ontario, CA - SKYTEX Technology Inc., further enforcing its directive to offer customers the latest quality technology will announce at CES South Hall 4, Booth 36263, that its new IMAGINE ST7600IR (MSRP \$229), 7" HD tablet running on the new [Android 4.1 Jelly Bean](#) operating system will turn your tablet into a powerful and universal smart TV remote controller device that utilizes a database of 100,000+ device codes. In addition, it's a learning remote that houses an IR receiver to "learn" the functions of any remote controller not found in its master database. The ST7600IR remote control tablet accommodates up to 4 devices including TV, satellite, cable, Blu-ray, amplifiers, etc. Powered by a 1.6GHz A9 dual core processor and Mali-400MP graphics engine that performs 45% faster, the SKYTEX IMAGINE 7 features a stunning 1280x800 high resolution display, HDMI, Bluetooth technology, customizable UI and 16GB internal storage that is expandable by another 32GB with an optional MicroSD card.

Users will have access to the SKYTEX App Store with thousands of "optimized-for-tablet" Android Apps. In addition, there is access to the Amazon App store, and 1Mobile Market with well-known games, eBooks, magazines, and social media sites. The IMAGINE ST7600IR tablet is packed with games and productivity Apps including 5GB of free cloud storage, Office Suite Pro, and merchant services to process credit card purchases.

- 7" 1280x800 HD Display; 16:9 Touch Screen
- Android 4.1 Jelly Bean Operating System
- Universal Smart TV Remote Controller & Receiver
- 16GB Storage; 1GB RAM; Micro-SD Card Slot (up to additional 32GB)
