

Credentials Solutions Prints 75,000th Transcript with eRoboMail

/EINPresswire.com/ High-speed print and mail service for institutions of higher education continues to grow

[Credentials Solutions](#) has printed the 75,000th transcript with [eRoboMail™](#). Credentials has leveraged state-of-the-art machinery for stuffing and mailing, streamlining the print and mail process. Since inception, the service has saved clients money by reducing labor, inventory management, and printer maintenance costs.

eRoboMail™

The eRoboMail print and mail solution continues to save colleges and universities time and money.

eRoboMail is the single-source solution for higher education's most pressing mail needs, fully-automating the printing, folding, stuffing and mailing of paper transcripts. This service increases security and document integrity by integrating security paper, tamper-proof envelopes, and copy and thermal protections, all while being handled at Credentials Solutions' facility. Paper transcripts are processed more efficiently and with fewer errors.

"eRoboMail was developed so we could aid institutions that are losing funding and facing a downsized staff, while still offering the exceptional service students expect," said Credentials Solutions CEO Thomas McKechney. "This service gets paper transcript fulfillment out of their office and allows them to redeploy staff to other crucial projects."

With eRoboMail continuing to grow and the recent launch of [Transcript ExchangePlus](#) to optimize transcript delivery, Credentials Solutions continues to innovate and develop solutions for the cash-strapped higher education market. "Credentials is never satisfied," added McKechney. "We are always looking for ways to save institutions money and when combined with sending electronic transcripts, fulfilling paper transcript orders at our facility has made a large impact in reducing overhead for our client institutions."

About Credentials Solutions

With flagship product TranscriptsPlus® and integrated automation software RoboRegistrar®, Credentials Solutions supports all major SIS platforms while providing online ordering, automated hold checking, integrated student communications with 12x5 customer service, and electronic extraction and delivery including EDI, XML and Secure PDFs. Transcript ExchangePlus™ enables client institutions to send transcripts electronically through Credentials' secure network

as well as industry accepted transcript hubs, while integrating with the eRoboMail™ service, which assumes the printing and mailing of paper transcripts. In addition, Credentials also offers ParkingPlus®, which automates parking permit ordering, payment, and fulfillment.
