SPRING, TX, UNITED STATES, October 7, 2026 /EINPresswire.com/ -- ONDECOR LLC, a fast-growing leader in home décor, today shared customer demand data highlighting bird wallpaper as a defining trend of 2026, with search interest and orders climbing across its peel-and-stick lineup. Birds, botanicals, and chinoiserie-inspired motifs surge as homeowners bring the outdoors in.

"Birds add life and movement to a wall that flat pattern simply can't. There's something optimistic about a room full of birds in flight." said Gabriel Batista, CEO of ONDECOR LLC.

ONDECOR's bird wallpaper collection spans songbirds, botanical scenes, and chinoiserie-inspired motifs designed for dining rooms, entryways, and statement walls.

Every design is PVC-free, non-toxic, and manufactured in the United States to ONDECOR's eco-friendly standards. The company has served more than 48,000 customers and remains committed to sustainable, affordable design without sacrificing quality.

"It's the chinoiserie influence coming back around — nature rendered with elegance. These walls feel collected, not decorated." added Batista.

The full collection is available now at https://ondecor.com/collections/bird-wallpaper with free shipping on all U.S. orders.

Media and design partners can request free peel and stick wallpaper samples through the ONDECOR website.
