

# FORZA Releases T5 Super Fruits - the Diet Pill with Super Powers

/EINPresswire.com/ Eating plenty of fruit has always been an easy and delicious way to remain in good health but with an increase in the number of exotic super fruits becoming commercially available, it seems that the traditional apple and banana no longer excites the vast majority of Western consumers.

The term super fruit was first used in 2005 and refers to any fruit with a significantly high nutritional value, rich anti-oxidant and vitamin content, stimulating health benefits and mouth-watering flavour. As well as offering a wide range of diverse and exciting taste experiences, many super fruits are also used in food supplements for their potential health benefits and ability to promote fast and permanent weight loss.

FORZA T5 Super Fruits gives you super powers

When FORZA added a stimulating burst of natural flavours to its [T5 Super Strength](#) formula in 2012 to create [T5 Super Fruits](#), it brought together more nutrient-rich fruit extracts than any other fat burner in existence. Among others, this includes the acai berry, a small purple fruit with one of the highest nutritional values in the world, and African mango, a powerful fat burner and appetite suppressant from West Africa, as well as a highly concentrated extract of sea kelp, a weight loss wonder that contains a wealth of immune-boosting vitamins and minerals all in 100% natural form.

The ultimate fruit extract explosion also contains [raspberry ketones](#), a powerful enzyme that has recently shot to international fame as a dieting sensation. The thermogenic phenomenon is able to raise body temperature and increase resting metabolism, which enables excess calories to be

converted into heat and released as thermal energy rather than being stored as fat.

“Compacting all of these hugely beneficial ingredients into a single unit was no easy task. Taking into consideration the overall weight and mass of the numerous fruit extracts, it was very difficult to compress such a high level of quality into just one easy to swallow capsule. However, I am proud to announce that with T5 Super Fruits once again our team at FORZA has excelled over and above the competition.”

Lee Smith – Managing Director, FORZA

With the remarkable combination of exotic and delicious extracts contained in T5 Super Fruits, it is surprisingly easy to stay tropical all year long.

FORZA Supplements has been an established sports nutrition and diet capsule manufacturer, wholesaler and retailer since 2007, holding over 15 trademarks and distributing worldwide from its Kent-based technology centre. Full site: [www.forzasupplements.co.uk](http://www.forzasupplements.co.uk)
