

# Center Stage AV Expands Audio Visual Rental Offering In Toronto

/EINPresswire.com/ Center Stage AV, the country's leading provider of corporate event production, full service audio visual event logistics, and event management, is pleased to announce its 15th year anniversary in audio visual rentals in the beautiful greater Toronto area.

Center Stage AV's [audio visual rental](#) division has served the greater Toronto area since its inception when the audio visual rental market was different than what is today. Center Stage AV continues to provide audio visual support for both small meetings and large-scale corporate events both locally and internationally. The shift towards increasing the audio visual rental division has come as a natural progression. In addition to offering top-quality [corporate AV services](#) in and around Southern Ontario, Center Stage AV will also be increasing its rental offering to include other AV technology such as Line Array sound, Presentation Technologies (PandorasBox, HD Projection, Conventional lighting, LED lighting and Intelligent lighting).

"We have recently increased our inventory to support growing demand for high end AV rental equipment." said Richard Dasrath, President and partner of Center Stage AV. Popular products that are required by businesses for large scale events are often cost prohibitive to be purchased for one time use. The upfront cost to purchase top quality projectors, mixing boards, microphones, speakers, lighting and stages have increased as clients require the very best for their events.

"We are getting a huge increase in the number of AV companies that need equipment for their next event including internet cafes and live Twitter walls to reflect the social media age we are in." said Denise Chyczij, Social Media Coordinator at Center Stage AV. Reasons for the growth in the AV market may be the result of increased promotion and enrollment in programs such as Ryerson University's Radio, Television, Audio/Video production. As a result, an increasing number of small businesses are starting to utilize [audio visual rental equipment](#) that they just don't have the resources to buy.

Audio visual companies interested in learning more about Center Stage AV's rental options in the greater Toronto area, can visit [www.centerstageAV.com](http://www.centerstageAV.com) or [www.audiovisualrentalstoronto.ca](http://www.audiovisualrentalstoronto.ca). Event coordinators interested in Center Stage's corporate events, should contact Richard Dasrath at 905.282.2444 or toll free at 1.877.674.AVAV for more information.
