The Denver, CO and Lakewood, CO Good Feet stores have developed a professional bi-lingual staff at both locations in order to better serve their English speaking and Spanish speaking community.

“We decided we would support the Spanish speaking community by hiring or training employees that can communicate best in their native language and be able to better relate the benefits of arch supports” says store owner Eric Kaplan. “Whether you speak Spanish, English or any other language our Good Feet arch supports can really help those in and around Denver that work on their feet or live an active lifestyle and suffer from some sort of foot, knee or back pain.”

Good Feet products are designed to support all four of the foot’s arches, which makes the personal fitting process so important. Through better arch support, a person’s body weight can be more evenly distributed, which maximizes stability and balance. The Denver and Ft. Collins Good Feet [foot pain](#) relief products are also designed to reduce pressure and eliminate foot pain, [arch pain](#), heel pain and knee pain from [plantar fasciitis](#) and even back pain.

The Denver Good Feet foot pain relief process provides each customer with personal bio-mechanical balancing and measuring. The customer’s primary activities and shoe style preferences are also taken into consideration prior to being personally fitted with arch supports and cushions that can provide them with the ultimate comfort, balance and support.

The Denver Good Feet stores are located at 1000 South Colorado Boulevard in Denver and 98 Wadsworth Blvd #123 in Lakewood, CO. For details or directions, call (303) 865-7961. Store Hours: Monday – Saturday: 10am – 6pm, Sunday: 11 am – 5pm.
