Vigilant Software Updates Cybersecurity Risk Assessment Tool

/EINPresswire.com/ Vigilant Software, the ISO27001 and cybersecurity risk assessment specialists, has today announced a new update to vsRisk™, the ISO27001 cybersecurity risk assessment tool. This update further demonstrates Vigilant Software's commitment to the on-going development of vsRisk based on market feedback.

Alan Calder, CEO of Vigilant Software (owned by IT Governance Ltd), said "vsRisk, the industry-leading ISO27001-compliant risk assessment tool, has simplified and automated the information security risk assessment process for many organisations across the globe, both large and small."

"Being IT compliance practitioners ourselves we fully understand the importance of on-going software development to provide anyone tasked with carrying out a cybersecurity risk assessment the best tools for the job. We estimate that vsRisk will reduce the time taken to carry out a risk assessment by 90% - long gone are the days of manual complex spreadsheets," Alan Calder continued.

The new version of vsRisk will be demoed in a new webinar series ISO27001 and the Importance of Risk Management. To register visit www.vigilantsoftware.co.uk/webinars.aspx.

More information on vsRisk, including a free 15 day trial, can be found at www.vigilantsoftware.co.uk/default.aspx.

NOTES TO EDITORS

Alan Calder is the CEO and founder of Vigilant Software. Alan is an acknowledged information security and risk management guru who managed the world's first successful ISO27001 (then BS7799) implementation project in 1996. A frequent media commentator on risk management issues, Alan Calder is also the co-author to vsRisk™ – the definitive cybersecurity risk assessment

tool.

Vigilant Software Ltd is part of the IT Governance group of companies and is the specialist ISO27001 risk assessment company. It specialises in developing and deploying tools that help organisations manage information security risk in compliance with industry leading standards such as ISO/IEC 27001 and ISO/IEC 27005. Its customer base spans Europe, the Americas, the Middle East and Asia. More information is available at www.vigilantsoftware.co.uk.
