Zion Outdoors Reaches 500 Five-Star Reviews, Reinforcing Its Leadership in Concrete Resurfacing Across Texas

DALLAS, MI, UNITED STATES, September 11, 2026 /EINPresswire.com/ -- Zion Outdoors, a Texas leader in concrete resurfacing, today announced a major company milestone: 500 five-star customer reviews. Built on the experience gained from nearly 30,000 outdoor projects, Zion Outdoors has become known for its award-winning proprietary resurfacing systems, Gem-Scape™ and Cap-Stone™, serving homeowners throughout Dallas, Fort Worth, Houston, Austin, San Antonio, and Waco.

> 500 five-star reviews represent more than customer ratings. They represent families inviting us to improve their homes, and the dedication of our teammates who strive to exceed expectations every day."
>
> *Jordan Winar, Co-Founder of Zion Outdoors*

The achievement reflects years of delivering beautiful outdoor spaces while continually refining installation techniques through real-world experience. Every completed project has contributed to the knowledge that now guides every driveway, patio, pool deck, walkway, and outdoor living transformation the company performs.

While many companies measure success by the number of projects completed, Zion Outdoors believes lasting success is measured by the willingness of clients to recommend the company to friends, neighbors, and family. Reaching 500 five-star reviews demonstrates a sustained commitment to craftsmanship, communication, and customer care.

The experience behind those reviews is equally significant.
The Zion Outdoors leadership team has accumulated expertise from nearly 30,000 outdoor projects, ranging from residential patios and pool decks to large commercial installations. That hands-on experience has allowed the company to develop standardized installation methods, quality-control systems, and client communication processes that continue to improve with every project completed.

Today, Zion Outdoors combines more than 200 years of collective industry experience, including over 75 years of design expertise and more than 125 years of installation experience, allowing homeowners to benefit from both exceptional planning and precise execution.

The company specializes in decorative concrete resurfacing, helping homeowners transform existing concrete without the expense, disruption, and environmental impact of demolition whenever replacement isn't necessary.

Its flagship product, Gem-Scape™, is a nationally award-winning proprietary concrete resurfacing system that recreates the appearance of natural stone, slate, tile, or custom masonry while utilizing the homeowner's existing concrete foundation. The system delivers the luxury appearance of custom stone at up to 50% less than replacement and is backed by Zion Outdoors' Lifetime Guarantee for qualifying residential installations.

Another cornerstone of the company's product lineup is Cap-Stone™, a nationally award-winning coping and deck overlay system designed to transform aging pool coping and surrounding concrete into elegant marble- or travertine-inspired finishes without the cost and inconvenience of full demolition.
Together, Gem-Scape™ and Cap-Stone™ have helped establish Zion Outdoors as one of Texas' most recognized names in decorative concrete and outdoor living renovations.

The company's commitment to excellence has also been recognized throughout the industry. Zion Outdoors is the recipient of the 2025 National Chrysalis Award, the 2025 Qualified Remodeler Master Design Award, and the 2025 Better Business Bureau Spark Award, which recognizes businesses that demonstrate exceptional Character, Culture, and Community. The company also maintains an A Rating with the Better Business Bureau and has been BBB Accredited since 2024.

Beyond construction, Zion Outdoors believes successful businesses have a responsibility to strengthen the communities they serve.

Through its Walkways for Warriors™ initiative, the company donates one professionally installed walkway to a United States military veteran for every 100 projects completed. The program reflects the company's commitment to giving back while creating outdoor spaces that improve everyday life.

Guided by faith and a client-first philosophy, Zion Outdoors continues to invest heavily in training, craftsmanship, customer experience, and innovation.
"Our experience has taught us that exceptional outdoor spaces are built long before materials are mixed," Winar said. "They begin with listening to homeowners, communicating honestly, refining every process, and never becoming satisfied with yesterday's standards."

As Zion Outdoors continues expanding throughout Texas, the company remains focused on its founding purpose: delivering award-winning concrete resurfacing solutions while treating every client with integrity, professionalism, and respect.

The company views its 500 five-star reviews as a shared accomplishment.

"This milestone belongs to our clients who trusted us, our employees who take pride in their craft, our trade partners who support our mission, and the communities that have welcomed us," Winar said. "We are incredibly grateful, and we believe the best is still ahead."
