The Mordin Hotel Guangzhou by Shenzhen Mellow Soft Decoration Wins Silver A' Design Award

Shenzhen Mellow Soft Decoration Co., Ltd. Receives Silver A' Design Award for Refined Five Star Hotel Interior

The Mordin Hotel Ghuangzhou

COMO, CO, ITALY, September 15, 2026 /EINPresswire.com/ -- The A' Design Award has announced The Mordin Hotel Guangzhou by Shenzhen Mellow Soft Decoration Co., Ltd. as a Silver winner in the Interior Space and Exhibition Design category. The A' Design Award is one of the world's most prestigious recognitions in the field of interior design, evaluating entries through a rigorous and impartial process. This achievement places The Mordin Hotel Guangzhou among a group of works acknowledged for thoughtful design and meaningful contribution to the discipline. The recognition reflects the careful consideration given to space, materials, and the relationship between architecture and natural surroundings. It positions the project as a notable example of contemporary hospitality design within the China Singapore Guangzhou Knowledge City.

This recognition holds relevance for the broader interior design community and for guests who experience the spaces firsthand. As the first five star business hotel in the China Singapore Guangzhou Knowledge City, The Mordin Hotel Guangzhou addresses a genuine gap in regional supporting facilities while responding to the needs of business and leisure travelers alike. The design aligns with current trends toward minimalist aesthetics, integration of natural landscape, and the separation of dynamic and quiet zones for guest comfort. By optimizing circulation, material selection, and landscape integration, the project raises the standard for high quality reception in the district. These qualities offer practical benefits for visitors, operators, and the

surrounding urban environment.

The Mordin Hotel Guangzhou adopts a modern minimalist style that seamlessly incorporates the scenery of Phoenix Lake. Low saturation neutral tones such as off white and light gray establish an elegant base, deep gray accents convey a business character, and light blue introduces visual highlights, together forming a refined atmosphere. The facade features transparent, coated, and tempered glass curtain walls that provide ultraviolet protection and thermal insulation, complemented by light gray matte stone that delivers delicate texture and weather resistance. Metal profiles sprayed with fluorocarbon contribute durability, corrosion resistance, and a refined finish. The interplay of transparent and solid materials, achieved through cutting, polishing, and bending techniques, ensures structural stability and a consistent business style. With separated zones, parallel circulation for business and leisure areas, and a versatile banquet hall, the hotel integrates accommodation, conferencing, and dining within a cohesive whole.

The Silver A' Design Award recognition may inform future directions for Shenzhen Mellow Soft Decoration Co., Ltd. and encourage continued exploration in hospitality and soft furnishing design. The project demonstrates how architecture, city, and nature can engage in harmonious dialogue, offering a reference point for subsequent work. This acknowledgment serves as motivation for the team to pursue further innovation in material application, spatial planning, and guest experience. It reinforces the value of design that responds to local context and the concept of industry and city integration.

Team Members
The Mordin Hotel Guangzhou was designed by Shenzhen Mellow Soft Decoration Co., Ltd. with the contributions of Wendy Ma and Susan Lin, who guided the soft furnishing design and the integration of materials, color, and spatial concept throughout the project.

Interested parties may learn more about the award winning design, its features, and the team behind it at the dedicated page provided by the A' Design Award. The page offers further detail on the concept, materials, and the recognition received.

About the Silver A' Design Award Recognition
The Silver A' Design Award recognizes designs that demonstrate excellence and innovation through both aesthetic and functional merit. Within the Interior Space and Exhibition Design category, recipients are evaluated against criteria including innovative use of space, material selection excellence, functional layout design, color scheme mastery, lighting design proficiency, sustainable design practice, cultural relevance, aesthetic appeal, ergonomic consideration, and attention to detail. Further criteria encompass budget management, client satisfaction, design longevity, accessibility standards compliance, incorporation of technology, space optimization, project management skills, safety considerations, and adaptability of design. Designs awarded this recognition reflect considered expertise and contribute to raising standards within the field. The designation acknowledges work that advances the practice of design and offers meaningful improvements to everyday environments.

About A' Design Award
The A' Interior Space, Retail and Exhibition Design Award is a highly respected competition that promotes excellence and innovation within the interior design industry. It welcomes a diverse range of participants, including visionaries, leading interior design agencies, innovative companies, renowned furniture manufacturers, and influential brands. Entries are assessed through a blind peer review process by a world class jury panel of design professionals, interior industry experts, journalists, and academics, who evaluate submissions against pre established criteria. Organized since 2008 and now in its 18th year, the A' Design Award is an international and juried competition open to entries from all countries and all industries. The ultimate aim of the A' Design Award is to recognize and promote superior projects that advance and benefit society, driven by a philanthropic mission to help create a better world through the transformative power of good design.
