

Industry Leader South Side Lock & Key LLC Has Redesigned Their Website: Southsidelockandkey.com

/EINPresswire.com/ [South Side Lock & Key](#) is announcing the launch of their new website.

South Side Lock & Key, the industry leader in [locksmith services](#), has built a site that will make navigating company information and services easier for customers.

Customers can now log on to Southsidelockandkey.com and access information about the company and all of their reputable services. The homepage has six tabs that categorize the main pages on the site.

There is a tab with background information on the company and what qualifications make the experts at South Side the best in Ohio at what they do. Customers can find a tab with all of the services provided by the company, and there is information on the warranted labor that South Side guarantees to all of their clients.

There is a tab with a list of all of South Side's products, including padlocks, deadbolts, aluminum storefront bolts, [panic alarms](#), and much more.

A separate tab is dedicated solely to Mul-T-Lock, which is one of the most impressive and effective high-security locks on the market today. Mul-T-Lock uses a patented pick and drill resistant dual-pin system and the distinctive dimple cut Mul-T-Lock key would be the most unique key on any ring.

Worried about unauthorized duplication? As an authorized dealer, only South Side has the local license and tools to duplicate keys upon request from authorized and credentialed personnel. If a homeowner or businessman wants an 'install it and forget it' lock that will stop most any bypass attempt AND put their mind at ease, then Mul-T-Lock is the answer.

The final sections are a reflection of South Side's dedication to customer service and satisfaction. There is a section with frequently asked questions and answers, and there is a tab that makes it easy to submit questions to the company. Anyone who wants to know about pricing can simply get on the site and submit an email from the contact tab.

South Side can help any business or homeowner with an emergency lock problem whether it's the middle of the day or after hours. The new website makes it easy to access the information customers need for their security and lock issues.
