MoreHotels4Less.com has also made site improvements, making it even easier to find the right hotel at the lowest rates.

When travelers want cheap hotel rates, they can rely on MoreHotels4Less.com with confidence. TopTenReviews.com recently recognized MoreHotels4Less.com as being one of the top 10 hotel sites for the third straight year.

TopTenReviews.com cited amenities listing, website ease of use, and money saving deals as the top reasons to book with MoreHotels4Less.com. Travelers can easily book their hotel reservations without dealing with clutter found on other travel websites.

"It's a great honor to be recognized for the third straight year by TopTenReviews.com. This recognition highlights our commitment to meeting the hotel reservation needs of all travelers. We continue to work diligently to provide exceptional value and a positive user experience to our customers," says Martin Elek, founder of MoreHotels4Less.com.

On top of providing affordable last minute hotel deals for travelers, MoreHotels4Less.com has made a number of improvements to the website to ensure ease of use and customer satisfaction. Hotel inventory has increased from 100,000 to over 250,000 hotels worldwide, giving travelers a wider choice of properties at cheaper rates. Hotel filtering has also improved with better choices for price, amenities and promotions. Moreover, multiple room types and rates are displayed in the initial hotel search results without having to click for more information and are available in over 79 different currencies. There is also a language converter that non-English speaking travelers can use to sort through results to find the right hotel at the cheapest rates.

TopTenReviews.com cited the amenities filter as one of the major reasons to use MoreHotels4Less.com, and recent improvements to the hotel descriptions also help travelers make the best choice for their vacation planning. To make hotel reservations on the go, the site recently went mobile giving travelers full site access to hotel inventory, pricing and amenities right from their smartphone, or tablet.

Customer service was another focus for improvements. The Click to Call function allows travelers to receive callbacks from hotel experts. Travelers can also utilize the Live Chat feature should they have questions while researching their vacation on MoreHotels4Less.com.

“We want to make it easy and fun for travelers to book their hotel and enjoy their vacation,” says Elek. “That starts with a commitment from us to provide customers with a site that’s easy to use, offers the largest inventory of hotels at the cheapest rates and deliver without sacrificing quality.”
