

Managed Medical Imaging Selected by Fast-Growing MD Now Urgent Care Centers as Digital X-Ray Provider

/EINPresswire.com/ Fort Lauderdale, FL - [MD Now](#), one of the fast growing Urgent Care Center chains in Florida, has selected [Managed Medical Imaging](#), LLC (MMI) to provide [Digital X-Ray](#) systems and on-going support to 10 new locations.

MD Now, with 15 existing and under construction locations and several more in development, is one of the fastest growing chains of Urgent Care centers in South Florida. MD Now provides fast, professional urgent care services to patients in the Palm Beach, Broward and Dade County areas.

"MMI has been providing ongoing medical imaging equipment service to MD Now for several years. Their level of service and affordable pricing made them the best the choice for a sales and service partner as we continue to expand" said Dr Peter Lamelas, CEO and founder of MD Now.

Urgent Care Centers are quickly becoming an important part of America's healthcare system. Their ability to meet many of a patient's most immediate non-emergency medical needs and their shorter lines are making them a much preferred alternative to waiting in an hospital emergency room. And the low cost of service offered by most urgent care facilities has made it so many health insurance plans will consider them to be "in network" even if they didn't accept the insurance.

MMI will be installing advanced digital X-Ray systems at each of the new South Florida locations. The speed, image quality and dependability of these systems will ensure that MD Now is able to quickly meet the medical imaging needs of it's patients.

About MD Now - MD Now is the largest and fastest growing independent provider of urgent care services in South Florida with locations conveniently located across Palm Beach and Broward counties. All of our clinics are open 8am - 8pm, 365 days per year, giving you easy access to care you can trust. Our patients are typically seen and treated in under and hour, without an appointment, making MD Now the ideal provider of the care you need when you need it the most.
