

A Completely New Concept In Activity Books: Mazes Inside The UFOs At AREA 51

/EINPresswire.com/ [Dover Publications](#) congratulates children's book author and illustrator Sean Kevin Gaffney on the success of his children's activity book: The [AREA 51 UFO Maintenance And Repair](#) Manual

UFO ENCOUNTER SPARKS MAZE BOOK IDEA

Sean Kevin's past mazes have appeared in many major children's publications, including Nickelodeon Magazine. Always thinking about his next new maze idea, Gaffney created this particular activity book by fusing his love of sci-fi with his personal interest in UFOs (he, and his daughter, had a UFO encounter several years ago).

GREASY FINGERPRINTS & COFFEE STAINS

The AREA 51 UFO Maintenance and Repair Manual is a full color 48 page activity book, resembling what a how-to-manual misplaced by an AREA 51 UFO technician would look like (including greasy fingerprint smudges, coffee stains, scribbled lunch orders & reminder notes).

WHEN THE FUN BEGINS

Having all the mazes and activities in this manual [integrated within alien components](#), compartments, and environments of extraterrestrial spaceships, can be hard to get ones head around, Gaffney says, "It may be a difficult concept to visualize, but once this book is actually in front of you, it's a total "AHA! MOMENT", and that's when the fun really begins".

Dover Publications, also known as Dover Books is an American book publisher founded in 1941.
