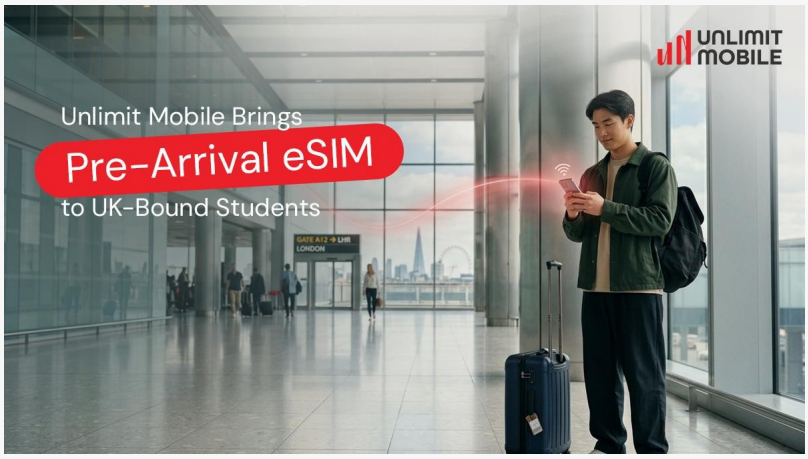
Unlimit Mobile Brings UK eSIM Pre-Arrival Activation to the 2026–27 International Student Intake

Students relocating to the UK can activate a UK number and data plan before departure; no credit check, no lock-in



LONDON, UNITED KINGDOM, September 21, 2026 / EINPresswire.com/ -- Unlimit Mobile, the international relocation connectivity brand from Zetexa Global, has made its UK eSIM available for pre-arrival activation ahead of the 2026–27 academic intake, allowing students to hold a working UK mobile number and data plan before they board their flight.

The offering targets a gap in the arrival process. International students typically land without a local number, then spend their first days locating a provider, passing identity checks and waiting on a physical SIM — at the same time as registering with their institution, securing accommodation and opening a bank account. A UK number is frequently a prerequisite for several of those steps.

Unlimit Mobile's UK eSIM issues a UK mobile number with data, local voice and SMS on eligible plans. Setup on a compatible handset takes approximately two minutes and can be completed before departure. Plans are prepaid, with no credit check and no exit penalty, and the service runs on Vodafone UK with 5G and LTE access. Hotspot and tethering are supported on compatible devices.

Affordable connectivity without a long-term contract

Tuition, accommodation, food and transport add up quickly, which makes mobile costs another expense worth keeping under control.

Unlimit Mobile's UK plans start from £0.39 per day. The service is prepaid, with no credit check

and no long-term contract, so students are not committing to the 24-month agreements standard across UK network operators.

Plans are sold in fixed terms of 3, 6 and 12 months. There is no lock-in beyond the term purchased and no exit penalty, so students whose circumstances change are not tied to an ongoing agreement.

Voice, SMS and international calling

Unlimit Mobile's UK offering includes a UK phone number, mobile data, local voice calls and SMS on eligible UK plans, so everyday communication does not depend entirely on Wi-Fi.

International calling and texting covers more than 190 destinations at published per-minute rates. This matters for students who regularly call family in their home countries, and for calls that cannot be made over a messaging app — to a bank, a school or a government office.

5G and LTE on Vodafone UK

UK plans run on the Vodafone UK network, with 5G and LTE coverage nationwide. Hotspot and tethering are supported on compatible handsets, allowing students to connect laptops and tablets where campus or accommodation Wi-Fi is unavailable.

Managing a plan through the app

Students can purchase a plan, renew their service and access available offers through the Unlimit Mobile app on iOS and Android, without a store visit or a call to customer service. Unlimit Mobile provides 24/7 customer support, giving newcomers access to assistance outside regular business hours.

The 12-month plan

For students staying a full academic year or longer, the 12-month option carries a five-year rate lock.

It also bundles airport services drawn from Zetexa Global's travel ancillary side: a meet-and-greet service for visiting parents, and lounge access in the event of a flight delay. Both are subject to eligibility and usage conditions.

Referral programme

Students rarely relocate alone, and classmates arriving the same term face the same connectivity problem. Unlimit Mobile's referral programme pays a reward when a friend purchases through a referral link, scaled to plan length — £10 on a 3-month plan, £25 on 6 months and £45 on 12

months.

A group offer is also available for students signing up together. Full terms, eligibility and payout conditions apply.

About Unlimit Mobile

Unlimit Mobile provides mobile connectivity for people relocating to the United States, Canada and the United Kingdom, including a local number, data, voice and SMS on prepaid plans with no contract or credit check. Unlimit Mobile is a product of Zetexa Global.

About Zetexa Global

Zetexa Global is an India-based travel ancillary and licensed telecom infrastructure company, holding telecom licences across multiple jurisdictions including the FCC, CRTC and DoT. The company operates a white-label and API-based connectivity platform for enterprise partners, alongside its consumer brands ZetSIM and Unlimit Mobile. Zetexa Global was founded by Amit Agarwal, Founder & CEO, and Srujan Yeleti, Founder & COO, and is headquartered in India.

Frequently Asked Questions

Can I use my existing phone with an Unlimit Mobile UK eSIM?

Yes, as long as it is unlocked and eSIM-compatible. Check your model on the eSIM device compatibility page.

Can I keep my home SIM and use an Unlimit Mobile eSIM at the same time?

Yes, if your phone supports dual SIM. Your home number stays active for OTPs and family contact while the UK line handles calls, texts and data. See Unlimit Mobile eSIM options.

When should I activate my UK eSIM?

Before you fly. Setup takes about two minutes, so you land with a working UK number instead of looking for a mobile shop.

Do I need a UK address, bank account or credit check?

No. Plans are prepaid with no credit check and no long-term contract. You get a UK number first, which helps with the bank account and university registration.

Can I use it for hotspot and tethering?

Yes, on compatible phones. Check your plan details for how hotspot use is counted against your allowance.

How do I call family back home?

Through international calling, which covers more than 190 destinations at published rates.

What network does it run on in the UK?

Vodafone UK, with 5G and LTE coverage.

What happens if I go home during term breaks?

Renew or change your plan before it expires — do not let it lapse. When a plan's validity ends, the number is suspended for seven days. If it is not renewed or switched to a new plan within that window, the number is permanently disconnected and cannot be recovered.

That matters more than it sounds: your UK number is usually attached to your bank, your university records and your accommodation. Set a reminder before you travel home.

What should I check before buying?

Five things: your phone is unlocked and eSIM-ready, how much data you use, whether you need voice and SMS, how long you will be in the UK, and whether prepaid suits you. Compare the UK eSIM plans against those.

Is Unlimit Mobile the same as ZetSIM?

No. Both are Zetexa Global products. Unlimit Mobile is for relocating to the UK, US or Canada. ZetSIM is a travel eSIM for short trips.
