

Virginia Plastic Surgeon First in the State to Offer Revolutionary Facelift Procedure

/EINPresswire.com/ Dr. Ben Hugo is excited to be the first in Virginia to offer LazerLift™, a revolutionary minimally invasive laser facelift

Dr. Ben Hugo is excited to be the first [plastic surgeon in Virginia](#) to offer LazerLift™, a revolutionary minimally invasive laser facelift.

The [LazerLift™ procedure](#) uses a sophisticated, highly advanced, FDA approved laser to provide tightening of the lower face, jawline and neck. The laser energy safely and effectively heats the deep surface of the skin and the tissues immediately underlying the skin, promoting collagen contraction, tightening, formation of new collagen and structural lifting.

A thin 2mm laser wand is introduced through three micro entry points hidden below the chin and earlobes, requiring only local anesthesia with mild sedation. There is no cutting, no stitches and minimal recovery and downtime.

The results are natural and pleasing: a new, younger looking you!

Ben Hugo Plastic Surgery will be offering a free seminar on Wednesday, February 27th at the Westin Virginia Beach Town Center for anyone interested in learning more about the LazerLift™ procedure. Presentations will be held at 1:00pm and 6:00pm. Reservations are required, as seating will be limited.

Ben Hugo, MD, FRCS (<http://www.benhugo.com>) is a board-certified plastic surgeon with more than 30 years of experience. As a skilled and well-respected plastic surgeon in Hampton Roads, Virginia, he offers facelift, blepharoplasty (eyelids), liposuction, non-surgical procedures including LazerLift™, Fractional CO2 laser resurfacing, CoolSculpting™, Sculptra™, Botox™ and Juvéderm™ filler.
