

All New 2013 Jeep Grand Cherokee Now Available At Northstar Jeep In Redcliffe

/EINPresswire.com/ Drivers interested in test driving the brand new [Jeep Grand Cherokee in Brisbane](#) can now stop in to [Northstar Jeep](#) Chrysler Dodge, which has a fully stocked lot of all the new 2013 Jeep vehicles.

Redcliffe QLD – Northstar Jeep is now offering customers the opportunity to test drive the new 2013 Jeep Grand Cherokee in Brisbane. The Redcliffe Chrysler, Jeep and Dodge dealer has a wide selection of this modern and versatile SUV in stock and ready to be put through its paces by potential owners.

The redesigned exterior of the Grand Cherokee features sculpted body panels, trapezoidal wheel wells and enhanced accessibility thanks to its longer front and rear door openings, while iconic features like Jeep's seven slot grille and aggressive stance make it unmistakable as a fitting addition to the Jeep line-up.

"The Jeep Grand Cherokee manages to straddle the line between ideal performance and high style. You won't find a more capable SUV on the road, but just because you might take a weekend trip to the backcountry, that doesn't mean you don't want to drive in style to work on Monday. The engineers at Jeep know how much Queensland drivers ask of their vehicles and Jeep Grand Cherokee delivers," said Bob Aldons of Northstar Chrysler Jeep Dodge in Redcliffe (<http://www.redcliffe.cjddealer.com.au/>).

The new Jeep Grand Cherokee is available in three models, Laredo, Limited and Overland. All come standard with Jeep's 3.6L Pentastar™ V6 petrol engine with Quadra-Trac® II active full-time 4WD, providing 210kW of power and 347N.m of torque. Limited and Overland owners can also choose the optional 5.7L HEMI® V8 engine which steps up performance with 259kW of power and 520N.m of torque.

All that muscle means that when properly equipped Jeep Grand Cherokee is capable of towing

up to 3,500 kg of cargo, and can do so safely with features like Trailer Sway Control (TSC) which detects excessive trailer sway and automatically reduces engine power and applies the breaks to counteract the movement of the trailer. Switching on the available TOW/HAUL feature further improves performance and fuel economy as well as minimising engine noise while hauling heavy loads.

"Drivers today are used to their vehicles being smart, but being behind the wheel of the new Jeep Grand Cherokee really makes you feel like you're being taken care of. Jeep's safety standards are second to none and it really shows in the thought they put in to, not only the towing package, but the overall design of this luxury SUV. And with drive-away pricing as low as \$50,521, you couldn't ask for a better deal," Aldons noted.

Auto shoppers interested in experiencing the 2013 Jeep Grand Cherokee for themselves can stop in to Northstar Jeep for a test drive at 320 Anzac Avenue, Kippa-Ring 4021, Redcliffe, QLD.

About Northstar Chrysler Jeep Dodge Redcliffe:
