Myburgh & Co Launches Advanced Peptide Skincare Brand With GLOW Serum

Australian-owned Myburgh & Co launches GLOW Advanced Peptide Serum, with more peptide skincare products and selected global distribution opportunities to follow

Myburgh & Co Glow Serum with GHK-CU and Snap 8 Complex Peptides

GOLD COAST, QLD, AUSTRALIA, September 18, 2026 / EINPresswire.com/ -- Myburgh & Co Launches Advanced Peptide Skincare Brand With GLOW Serum

Australian skincare brand launches GLOW Advanced Peptide Serum as the first release in a growing collection of advanced peptide skincare.

Australian made and owned, skincare brand Myburgh & Co has officially launched, introducing a new premium skincare range combining advanced peptide formulations with a sophisticated approach to everyday skincare for everyone.

> Myburgh & Co was created from a genuine passion for skincare and a belief that beautiful products should also be backed by carefully considered formulations."

Leading the launch is GLOW Advanced Peptide Serum, the first product in what will become a broader collection of targeted skincare from Myburgh & Co.

GLOW combines GHK-Cu (Copper Tripeptide-1) with a multi-peptide complex, niacinamide, sodium hyaluronate and complementary skincare actives. The serum has been developed to help support smoother, firmer and more radiant-looking skin while improving the appearance of fine lines and skin texture.

"Myburgh & Co was created from a genuine passion for skincare and a belief that beautiful products should also be backed by carefully considered formulations," said Susann Myburgh, Founder of Myburgh & Co. "GLOW is just the beginning for us. We have an exciting collection

coming behind it, and we're incredibly proud to finally introduce Myburgh & Co."

Following the launch of GLOW, Myburgh & Co will progressively introduce additional products across its advanced skincare collection, including peptide eye care, day and night moisturisers, peptide masks and targeted treatments.

Each product is being developed with the same philosophy behind GLOW: combining advanced cosmetic ingredients and peptide technology with a premium skincare experience designed to become part of an everyday ritual.

As Myburgh & Co begins its international rollout, the company is also seeking selected retailers, resellers and distribution partners across Australia and key international markets.

Myburgh & Co Advanced Peptide Skin Care

Myburgh & Co Advanced Peptide Skin Care Real Benefits you can see

A limited number of geographically exclusive opportunities may be available for suitable partners.

Its debut product, GLOW Advanced Peptide Serum, is available now, with additional Myburgh & Co products being progressively released.

Science. Radiance. Confidence.
