

FlipPageMaker Releases Version 3.8.8 of the Affordable Page Flip Software for PDF with Full Features

/EINPresswire.com/ [FlipBook Creator](#) is standard [page flip software](#) for converting PDF files to e-books in a total different style. It is page flipping style which is able to bring a new experience to readers. Recently, the software is upgraded to a newer version 3.8.8.

FlipBook Creator is standard page flip software for converting PDF files to e-books in a total different style. It is page flipping style which is able to bring a new experience to readers. Recently, the software is upgraded to a newer version 3.8.8. Two great features are added to make it more powerful. However, its price is still the same even though its function is enhanced several times so far. This cost-effective edition is especially suitable for small business, none-profit organization, and educational organization.

FlipBook Creator enable users to convert PDF documents to realistic flash flip book with page turning effect.

Two new features had been added into FlipBook Creator V3.8.8. The one is function of bookmark tab. Users can design colorful bookmark tabs for their flipping book with ease. Digital bookmark tab works well and play its critical role in digital flipping book. As material bookmark, digital bookmark can link to desired location quickly. Readers can find information they need in a second. Digital bookmark tabs functions as a useful navigation in page flip book. In addition to function of bookmark tab, FlipBook Creator v3.8.8 offers a model for designing bookcase. Virtual bookcase has its own web address so that readers can access to it via internet. To display digital magazines in a beautiful virtual bookcase, click to open any e-book with mouse in computer, and enjoy reading times. All these things will come true easily with FlipBook Creator.

For software users, these two excellent features can do a lot of actual help. FlipBook Creator now can help for online store owner, library, and so on. People can use it to design product brochure, display their product catalogs or e-books in bookcase. Such kind of novel way may be able to attract eyes.

Besides the two new features mentioned above, there is a summary of main feature of the [flip book maker](#):

1. Convert PDF to flipping book in multiple output types
2. Dozens of free templates and themes are pre-configured to quickly apply
3. Embed background music and background animated scenes
4. Apply assistant to tell the story for the flipping book
5. Upload created flipping book onto FlipPageMaker Service directly
6. Make mobile version for reading ebook on iPhone, iPad, and Android mobile device

Sam Hwang, the senior page flip software engineer said in the annual meeting that ever since the release, the company has received many appraises and comments. They always take users' needs into serious consideration. The service-orient culture in the business helps them to own customers support and trust.
