

Symposium of Experts on Life Extension in Las Vegas March 22-24, 2013

/EINPresswire.com/ The leading experts discuss the latest in health supplements, therapies, and treatments conducive to enhancing and extending life.

Lake Tahoe, NV – Life Enhancement Products' CEO Will Block announced today that the company will sponsor an innovative symposium with top experts on Life Extension and Life Enhancement, featuring the latest scientific research in Las Vegas, March 22-24, 2013. It is expected that over 100 people will attend to hear and meet legendary Life Extension scientists, Durk Pearson and Sandy Shaw,[®] authors of bestseller in 1982, *Life Extension: A Practical Scientific Approach*. Their work has dramatically expanded awareness and knowledge of many issues on health and longevity and helped create a new paradigm for science-based nutrition. They will be speaking about their latest findings and products; e.g., a nutritional formulation to radically improve the quality of sleep by enabling the multiple phases of sleep to be more productive, thereby empowering your brain to navigate nature's restorative sleep pathways.

The conference brings diverse thought leaders, nutritional experts, and medical professionals together for interactive discussions about the options for extending life and life quality over the next several decades on an accelerated plane. The focus of the conference is how any individual can be proactive and take advantage of current strategies and existing nutritional supplements, unknown to but a few, to experience immediate and lasting benefits. Business experts will discuss some industry changes and trends in this rapidly evolving field in the U.S. and abroad.

Symposium guest speakers include Ward Dean, MD, author of *Biological Aging Measurements and Smart Drugs & Nutrients*; Terry Grossman, MD, co-author of *Fantastic Voyage and Transcend, (Nine Steps to Living Well Forever)* with Ray Kurzweil; Richard Kaufman, PhD, author of *The Age Reduction System*; Will Block, publisher of *Life Enhancement* magazine, and author of *The 5-HTP Archives*; Bill Andrews, PhD, leader of the team at Geron Corporation to first identify human telomerase, and now head of Sierra Sciences, a company that has screened for a natural substance that slows down or stops the telomere aging clock.

Topics covered will include the latest in health supplements, up-to-date knowledge about health and medical research, innovative products related to enhancing life, which products and treatments are conducive to extending life, new lifespan-enhancing developments taking place around the planet, how medical tourism holds options for optimal health and regenerative medicine, what changes in these areas to expect in the coming months and years, how to use

therapies to regenerate new tissue and leapfrog yourself into the future, and how to taking advantage of new opportunities for vigorous health.

Speak to and hear from some of the greatest experts in the field and advance your personalized Life Enhancement and Life Extension program. Find out how to add years to your life and life to your years.

The conference will be held at the Platinum Hotel in Las Vegas. It begins on Friday, March 22 at 6 pm will be concluded on Sunday, March 24, 2013. Space is limited. [Register](#) for the conference or for [more information](#) go to www.life-enhancement.com
