Evolution Moving Company Marks 12 Years Serving San Antonio with Flat Hourly Pricing Model

Founded in 2014, Evolution Moving Company marks its 12-year San Antonio anniversary with a flat hourly rate quoted at booking and honored on move day.

Evolution Moving Company

SAN ANTONIO, TX, UNITED STATES, September 18, 2026 / EINPresswire.com/ -- Evolution Moving Company marks 12 years of continuous operation in San Antonio this year. The company is using the milestone to formalize the pricing structure that has anchored its work in the Alamo City since 2014: a flat hourly rate quoted before the truck arrives and honored on move day without exception.

The company was founded in San Antonio in 2014 and has run on the same principle for more than a decade. Customers receive a price at the time of booking, and that price does not shift once boxes are loaded. There are no fuel surcharges tacked on at the end of the job, no stair fees, no long-carry fees, and no charges for shrink wrap or basic protective materials. The number quoted is the number paid.

For movers in San Antonio, that pricing model runs against the industry norm. Most moving quotes issued in Texas are estimates that adjust based on weight, mileage, time overruns, or line-item additions written in fine print. Complaints filed with the Texas Department of Motor Vehicles and the Better Business Bureau frequently center on the gap between the estimate and the final invoice. Evolution Moving Company built its hourly model to close that gap.

"After 12 years of running moves across San Antonio, the number one thing customers still ask for is a price they can trust," a company spokesperson said. "We fixed that at the beginning. We quote an hourly rate. That rate covers the crew, the truck, the fuel, the pads, the wrap, and the labor. Nothing gets added on move day."

The San Antonio moving company operates out of 11955 Parliament St, Ste 1308, with crews serving Downtown, Stone Oak, Alamo Heights, The Dominion, Castle Hills, and Shavano Park,

along with every ZIP code inside Loop 1604. Extended service reaches New Braunfels, Schertz, Converse, and Canyon Lake. The company is licensed under USDOT 2467590 and MC-1239409-C for interstate operations, and holds Texas intrastate authority under TxDMV 006779351C.

The flat hourly model applies across every service line. Local moves inside San Antonio are billed by the hour with a two-hour minimum. Apartment moves, single-family home moves, and studio relocations run under the same structure. Packing services, unpacking, piano moves, and labor-only jobs are all quoted on the hourly rate. Long-distance moves out of San Antonio to Austin, Dallas, Fort Worth, and other Texas metros carry a fixed flat rate agreed to before the move date.

Every crew member on an Evolution Moving Company job is a W-2 employee of the company. The business does not subcontract work to third-party movers, and it does not broker jobs to other carriers. That structure allows the company to enforce its own training standards on protective wrapping, furniture disassembly, load bracing, and customer communication.

Twelve years of local work has produced a customer base that returns and refers. Independent reviews on moveBuddha place Evolution Moving Company at a 4.7-star rating with a reported 96 percent referral rate and a 1 percent damage claim rate. Yelp lists the company at a 4.6-star average across more than a decade of San Antonio moves. Repeat business from military families relocating in and out of Joint Base San Antonio, Lackland Air Force Base, Randolph Air Force Base, and Fort Sam Houston has grown into a dedicated PCS booking channel with military discounts available on request.
