

Fight Signs of Ageing With The Harley Medical Group

/EINPresswire.com/ UK (Submitpressrelease123.com - press release) As we get older and the evolution of skincare becomes progressively sophisticated, our persistent concerns for fine lines, wrinkles and stubborn signs of aging are becoming ever more apparent. Recently published figures found in the Guardian demonstrate a 0.2% increase in people having surgery for anti-aging treatments in the UK over the last 12 months.

(<http://www.guardian.co.uk/news/datablog/2013/jan/28/uk-plastic-surgery-statistics-brow-lifts>)

The [Harley Medical](#) Group are experts in skincare and have been offering anti-ageing solutions for 30 years.

[Botox injections](#)/therapy is one of the Groups' most popular and effective treatments for these determined fine lines. Using a purified protein, the non-evasive technique induces long-term relaxation of contracted muscle movement that can cause deep frown lines to restore a more youthful, plumper appearance.

For more dramatic results, The Harley Medical Group offer facelift surgery. Also known as Rhytidectomy, this is one of the most commonly requested procedures by both men and women who want to look as young as they feel. It is performed to remove or reduce the skin that has lost its natural elasticity (usually around the eyes, mouth and jaw line), smooth the skin, reduce lines and wrinkles and rejuvenate a tired-looking appearance.

Another effective treatment for fine lines and wrinkles at The Harley Medical Group is their Dermaroller Therapy; a natural skin regeneration repair treatment which significantly reduces the appearance of fine lines and wrinkles. Dermaroller uses an advanced micro-medical skin-needling technique, which stimulates the skin to regenerate and repair itself naturally and safely to create smoother, brighter, and younger-looking skin.

Perhaps most popular however, are The Harley Medical Group's fantastic range of non-evasive skin peels which effectively treat all signs of wrinkles, fine lines, acne and sun damaged skin. These treatments leave the skin looking healthier, plumper and tighter. Of particular note, is the Obagi Blue Skin Peel which, with its low concentration of Trichloroacetic Chemical Acid (TCA) mixed with a special blue base, replaces all dead skin cells with new, healthier ones.

Bernadette Harte, Nurse Counsellor at The Harley Medical Group, says: "Lines and wrinkles are unfortunately, a natural and unstoppable part of the ageing process. But while they are inevitable they can be prevented and dramatically reduced. Here at The Harley Medical Group, we have revolutionised all signs of ageing with our very special anti-ageing treatments designed to

leave patients with smoother, revitalized, and younger looking skin.”

India Marksden, who had face lift surgery with Harley Medical Group, says: “I have always been a great believer in the Peter Pan dream and couldn’t stand the thought of my skin ageing. It got so desperate at times that I would refuse to have mirrors around the house. I just couldn’t bare to see the amount of wrinkles on my face or have people look at me in a self-pitied way. I finally decided that enough was enough and decided to have a facelift. This has been the best decision I have ever made and I am thrilled with the results. I now feel 100% confident about the way I look and couldn’t recommend the groups’ value and expertise more highly!”

NOTES TO EDITORS:

The Harley Medical Group is the UK and Ireland’s largest cosmetic surgery provider, performing more procedures and with more clinics than any other cosmetic surgery group. It has been established since 1983 and is one of the most highly regarded Cosmetic Surgery Groups operating in the UK. It has treated over 500,000 patients to date.

The Harley Medical Group works tirelessly to maintain the highest standards in the industry for the benefits all cosmetic surgery and non-surgical patients. We are currently at the forefront of the campaign to ensure that the Government continues to regulate the use of certain laser types used in cosmetic surgery and non-surgical treatments so that patients are protected from rogue practitioners.

In 2004, The Harley Medical Group’s Chairman Mel Braham, at the request of the Department of Health became a member of the department’s Steering Committee, set up to oversee the introduction of new regulations covering the entire Cosmetic Surgery sector. All of The Harley Medical Group’s clinics are registered with the Care Quality Commission. There are clinics nationwide in the UK: London (Harley Street, Wimbledon, The City, Chiswick, Finchley & Watford), Marlow, Birmingham, Leeds, Brighton, Bristol, Manchester, Newcastle, Chester, Nottingham, Southampton, Cardiff, Chelmsford, Northampton, Cambridge, Maidstone, Reading, Sheffield, Liverpool, Bromley, Glasgow, Cheltenham, Leicester and Guildford.

The Harley Medical Group is renowned for introducing and pioneering most new surgical and non-surgical techniques. All new treatments and techniques are first thoroughly researched and tested before they are submitted for approval by the Group's Medical Advisory Board.
