# Power Construction Inc. Formalizes Roofing & Siding Coverage Across Mercer County, NJ and Bucks County, PA

*Licensed, insured roofing and siding is now confirmed in Lawrence Township, Princeton, West Windsor, Hillsborough Township, Yardley, and Newtown.*

LAWRENCE TOWNSHIP, NJ, UNITED STATES, September 18, 2026 /EINPresswire.com/ -- LAWRENCE TOWNSHIP, NJ, September 18, 2026,

Power Construction Inc., a family-owned general contractor specializing in roofing and siding, has formally confirmed active service coverage across six communities in Mercer County, New Jersey and Bucks County, Pennsylvania: Lawrence Township, Princeton, West Windsor, Hillsborough Township, Yardley, and Newtown, effective immediately. The update gives homeowners across the region clear confirmation of full-service roofing, siding, and general contracting support from a single licensed, insured provider.

The company has served the Lawrence Township area for more than 25 years and has steadily grown its footprint across neighboring New Jersey and Pennsylvania communities as demand for roofing and siding work increased. Power Construction Inc. is licensed and insured in both states and installs materials from GAF, CertainTeed, and James Hardie, backed by a project turnaround that avoids the multi-month waitlists common among area contractors.

"We've built this company on showing up when we say we will and doing the job right the first time. Formalizing these six towns just makes that promise official," said Rafael Calderon, owner of Power Construction Inc.

Homeowners across all six confirmed communities receive the same licensed crew, the same manufacturer-backed materials, and the same responsive scheduling Power Construction Inc. is known for regionally, with no distinction in service quality or pricing between its original service area and the newly confirmed communities.

Power Construction Inc., building homeowners' dreams across New Jersey and Pennsylvania since 2001.

FAQ

Is Power Construction Inc. now taking new customers in Princeton, West Windsor, Hillsborough Township, Yardley, and Newtown?
Yes. Power Construction Inc. is accepting new roofing, siding, and general contracting projects in all five communities immediately, alongside its existing base in Lawrence Township. Customers in any of the six confirmed areas work with the same licensed, insured crew and can request a free estimate online or by phone.

Does this change pricing or project timelines?
No. Power Construction Inc. is not changing its pricing or scheduling practices as part of this update. Project timelines and estimate turnaround stay the same across all six confirmed service areas.

What services are available in the newly confirmed areas?
All of Power Construction Inc.'s core services are available across the six confirmed communities, including roof installation and repair, storm damage repair, siding, gutters, home additions, and general contracting. Customers in any of the six areas can request the same services, from the same licensed team, at the same rates.
