

Manhattan Mold Removal Co. Offers Helping Hand To Vicitims of Super Storm Sandy

/EINPresswire.com/ Brooklyn, NY (submitpressrelease123.com - press release) With toxic mold infestations are on the rise in the wake of Hurricane Sandy. Motty Katz and his [Manhattan mold removal](#) and inspection company, [Five Boro Mold Specialist](#), are not only helping prevent a toxic mold outbreak in NYC, they recently established the "Hurricane Sandy Toxic Mold Relief Fund, donating their time and resources to help low income home owners and renters the means to eradicate toxic mold from there properties.

Hurricane Sandy blew through with a vengeance and left behind thousands of NYC damaged homes, properties, and businesses. As homeowners took stock, mold began to infest the houses, and Motty Katz and his technicians from Five Boro Mold Specialist got to work exterminating toxic mold from numerous properties. Homeowners turned to their insurance companies for assistance, but were denied coverage for damage from the "Super Storm status", while FEMA, by law, could sometimes help with damage up to the flood line. Homeowners sought loans such as second mortgages, but without a current certificate of inspection, something the houses could not be awarded without a proper home and mold inspection, the banks and financial institutions have been denying loans left and right. Hope is still dim for thousands that have and are still being affected by Super storm Sandy's wrath, and with a harsh winter in the midst, many homeowners, renters, and businesses have literally been forced to leave their properties with no help in sight. This is one of the main reasons why the NYC mold inspections company established the "Hurricane Sandy Mold Relief Fund" on top of the toxic mold plague that is brewing in New York City and surrounding areas.

The "Hurricane Sandy Mold Relief Fund" contributes funds and services to homeowners in need who can then afford to have mold removal and remediation for their homes. Not only have Katz and the Five Boro Mold Specialist technicians started the Fund, but they have also been donating time, money and effort to help the community get back on its feet. So far, over 50 low income homeowners have seen their homes saved with their help. Other low income homeowners can apply for assistance at the fund's website or by email.

Five Boro Mold Specialist and Katz provide clients with an outstanding 2 year warranty of the work. It's one of the perks of being a loyal customer, and because of the terrible damage done by Hurricane Sandy. The future well being of NYC rests on your shoulders, and on those of active citizens like Katz and his Five Boro Mold Specialist technicians.
