Peak Quality Roofing has strengthened its position in Melrose while continuing to expand its presence in neighboring Malden. "Ranking No. 1 here in Melrose and No. 2 next door in Malden tells us the same thing from two different angles — people are finding us first, and once we do the job, they're happy enough to keep sending their neighbors our way," said Jim Rincon, Owner of Peak Quality Roofing. "We've built this business town by town across Melrose, Malden, and Wakefield, and these numbers reflect the work that goes into every single job. We're looking forward to bringing that same standard to even more homeowners across the region."

Local Falcon's geo-grid analysis tests how a business ranks across a wide grid of search points spread throughout a service area, rather than relying on a single search result. In Melrose, an 11-

by-11 grid of 121 search points across a 5-mile radius showed Peak Quality Roofing ranking first at every single point — a perfect Share of Local Voice score. The same method in Malden, run across a 1.5-mile radius, placed the company second overall among local roofing contractors.

Peak Quality Roofing currently serves Melrose, Malden, Wakefield, and surrounding Massachusetts communities.
