

# Rangemaster proudly introduces the new Senator kitchen sink

---

/EINPresswire.com/ UK (Submitpressrelease123.com - press release) Rangemaster has added a new product to its extensive range of high-quality kitchen sinks – the modern and stylish Senator.

The sink is the perfect choice for homeowners who want to create a minimal, contemporary kitchen that oozes sophistication and style. The cutting edge product features clean, sharp lines and is ergonomically designed to be as user-friendly, but attractive as possible.

Homeowners can choose from a single bowl sink, priced at around £549, or a 1.5 bowl sink, which costs around £649. This features a drainer that can be either right or left-handed depending on the customer's specific requirements. Both are designed to be as close to the shape of square as possible to ensure they look attractive in any kitchen, while the completely smooth, sloped drainer further adds to the sleek, clean look.

The Senator is manufactured using heavy gauge 1.2mm 18/10 stainless steel, which means customers can rest assured they are purchasing a product of the very highest quality that will last a lifetime.

Holly Johnson, Marketing Manager for Rangemaster said: "We understand that when people buy a new kitchen sink, they want something sturdy and reliable that is going to last them a long time. There's no point cutting corners and buying a cheap product that will need to be replaced in a couple of years as it's a waste of time and money.

"This is why we've manufactured our new [Rangemaster senator sink](#) from the very best stainless steel and have put a great deal of thought into creating a design that is not only practical and functional, but is contemporary, modern and extremely stylish."

Rangemaster is the largest manufacturer of stainless steel kitchen sinks in the UK and provides products to national house builders, local authorities, distributors and kitchen retailers. The company has a history that stretches back over 200 years.

ENDS
