

Vigilant Software announces special cyber security risk assessment offer

/EINPresswire.com/ [Vigilant Software](#), the risk management solutions provider, has today announced a special offer of its [vsRisk™](#) cyber security risk assessment software. All purchases of vsRisk in March 2013 will include a free copy of the information security risk management standard ISO27005 (worth £100), and a free copy of the book 'Information Security Risk Management for ISO 27001/ISO 27002' (worth £39.95). To take advantage of this offer, please visit www.vigilantsoftware.co.uk.

Alan Calder, cyber security expert and Vigilant Software CEO, says, "Risk assessment is a key stage of any ISO27001 implementation. To attempt it without using modern software tools would be like trying to cut down a mature tree using a pen knife. vsRisk will accelerate and automate the risk assessment process, saving your organisation large amounts of resources. This risk assessment offer is a must have for anyone tasked with carrying out a risk assessment of their organisation's assets."

More information on the cyber security risk assessment software 'vsRisk' can be found at www.vigilantsoftware.co.uk

NOTES TO EDITORS

Alan Calder is the CEO and founder of Vigilant Software. Alan is an acknowledged information security and risk management guru who managed the world's first successful ISO27001 (then BS7799) implementation project in 1996. A frequent media commentator on risk management issues, Alan Calder is also the co-author to vsRisk™ – the definitive cybersecurity risk assessment tool.

Vigilant Software Ltd is part of the IT Governance group of companies and is the specialist

ISO27001 risk assessment company. It specialises in developing and deploying tools that help organisations manage information security risk in compliance with industry leading standards such as ISO/IEC 27001 and ISO/IEC 27005. Its customer base spans Europe, the Americas, the Middle East and Asia. More information is available at www.vigilantsoftware.co.uk.
