

March Madness Continues as Royal Vegas Offers 1000 Free Spins

/EINPresswire.com/ [Royal Vegas](#) is offering players the chance to pick their welcome bonus during the month of March. Players can choose between \$1200 Free or [1000 free spins](#) (Free play for a day).

March Madness has taken over Royal Vegas Casino as they offer new players a [Pick your Bonus](#) offer. This offer is only available for the month of March and for new players at Royal Vegas. Players can choose between the usual \$1200 welcome bonus or 1000 free spins meaning free play for a day deposit free.

Pick your Bonus

The usual new player welcome bonus is still available in March for players that want to cash in on the free \$1200. This new player welcome bonus is paid out as part of a deposit match bonus and players will need to make a minimum of three deposits in order to claim the bonus. New players must adhere to the terms and conditions of this bonus in order to get the full \$1200 Free.

The new special offer available in March from Royal Vegas is 1000 Free spins also referred to as Free play for a day as the spins will only last one day. This bonus is a deposit free bonus and new players will not need to deposit in order to claim the bonus. The bonus is available to all new players at Royal Vegas that decide they want to claim the 1000 Free spins and NOT the \$1200 Free. The terms and conditions apply for the 1000 Free spins so players must be aware that the credits will only be in their account for one day and they will get free play for a day.

Both new player welcome bonus options have their pros and cons, one is deposit free the other is three deposits and the one is one day only whilst the other is longer. This type of bonus will appeal to players that are unsure of the casino with a Free play for a day option they can test out Royal Vegas without spending a penny. It's not often that an online casino will allow players to choose what type of bonus or reward they want so it will be interesting to see what bonus players are more likely to choose.
