[BizBash](#), the leading trade media for event and meeting organizers and event marketers, has announced its first [top 35 event designers](#) list. After reviewing work from candidates across North America, BizBash selected the designers who are shaping what events look and feel like today. This group of talented designers create hundreds of events each year, including White House state dinners, Oscar parties, events at SXSW, social events for Arabian sultans, and more.

"Events are a powerful communication tool and today's event designer is not just building visual and immersive environments, but also changing the way guests interact with their hosts and with each other," said BizBash executive editor Anna Sekula.
