

Innovative Technology Company Sencore to Exhibit at 2013 NAB Show

/EINPresswire.com/ Sencore, an engineering leader in content monitoring solutions, will exhibit at the upcoming 2013 NAB Show in Las Vegas, Nevada.

Leading provider of signal quality and video delivery solutions Sencore will exhibit at this year's National Association of Broadcasters (NAB) Show, to be held April 8-11 at the Las Vegas Convention Center in Nevada. From Booth SU2616, Sencore featured products will include: Sencore's Advanced [Receiver Decoders](#) - MRD 5800 & 4400, Live OTT/ABR Transcoder - TXS 8600, DVB-S/S2 Modulator - SMD 989, and 10G Core Monitoring Blade - the VB330.

"We are excited to participate in the NAB Show again this year," said Thomas Stingley, President of Sencore. "As a leader in signal transmission and content monitoring solutions for the broadcast, cable, satellite, and IPTV markets, Sencore is always a key participant in this event. We're looking forward to connecting with our customers and partners and sharing our latest products with the brightest minds in the industry."

Designed to foster creative inspiration and showcase next-generation technologies, the NAB Show is the world's largest electronic media show covering filmed entertainment, content development and delivery across all types of media. With over 90,000 attendees, from 151 countries and more than 1,600 exhibitors, it is a melting pot of professionals and technology that breathe new life into the broadcasting and content world.

Sencore is a rapidly growing technology company focused on creating innovative products and services to make efficient, high-quality video delivery possible. To meet the needs of modern media, Sencore offers digital video delivery design, professional broadcast and multichannel distribution expertise, full-scale manufacturing, customized solutions, quality-of-service monitoring and analysis, tests and measurements, and more. By participating in this event, Sencore hopes to spread the message about its products.

"Being hands-on with our customers is a big priority at Sencore, and getting involved with events like the NAB Show is a great way to integrate our latest products into our customers' applications - and to help our customers achieve their goals. That's why we choose to be involved," Stingley

said.

About Sencore: Sencore is an engineering leader in the development of reliable, cost-effective signal transmission and content monitoring solutions for the broadcast, cable, satellite, and IPTV markets. Backed by world-class customer service and support, Sencore's portfolio includes video contribution and distribution equipment, system monitoring and analysis solutions, and test and measurement instruments. Designed to meet the needs of an ever-changing industry, Sencore solutions ensure the efficient delivery of high-quality video from the source to the home, including the latest IP-based video delivery and multiscreen OTT technologies.
