Applied Communications Group Becomes Genetec Dealer, Expanding Security Solutions Across Northern Illinois

New Dealer Relationship Adds Unified Video Surveillance, Access Control, and Security Management Solutions

ACG Company Logo

SCHAUMBURG, IL, UNITED STATES, September 29, 2026 / EINPresswire.com/ -- Applied Communications Group (ACG), a provider of low-voltage technology and integrated security systems, is pleased to announce that it is now a Genetec dealer. The new relationship expands the security solutions ACG can provide to customers throughout Chicagoland and Northern Illinois.

ACG can now offer Genetec's unified security platform as part of its system design, installation, integration, and service work. Available solutions include security camera systems and video surveillance, access control, license plate recognition, security system management, and integrated physical security systems.

> "Our team looks forward to combining Genetec's technology with the design, installation, and service experience our customers have relied on for nearly 30 years."
>
> *Michael Meilahn, President of Applied Communications Group*

The expanded offering supports organizations across municipal government, public safety, commercial facilities, and education. ACG will work with each customer to select and integrate solutions that fit its facilities, operations, and security requirements.

"Becoming a Genetec dealer gives us another way to help customers manage security across their facilities," said Michael Meilahn, President of Applied Communications Group. "Our team looks forward to combining Genetec's technology with the design, installation, and service experience our customers have relied on for nearly 30 years."

About Applied Communications Group
