SC Awards to Mark 30 Years of Recognizing Cybersecurity Excellence in 2027

Nominations open October 6 for the 30th annual SC Awards, honoring the solutions, organizations, and leaders advancing cybersecurity.

SAN FRANCISCO, CA, UNITED STATES, September 29, 2026 /EINPresswire.com/ -- CyberRisk Alliance and SC Media today announced that nominations for the 2027 SC Awards will open on October 6, 2026, launching the 30th annual program honoring cybersecurity's leading solutions, organizations, and leaders.

For three decades, the SC Awards have recognized the work helping security teams reduce risk, strengthen resilience, protect organizations, and respond to a changing threat landscape. The 2027 program will continue that legacy with categories spanning cloud security, identity, data protection, threat detection, response, exposure management, risk, compliance, leadership, and more.

"For 30 years, the SC Awards have recognized meaningful progress across cybersecurity," said Kelley Damore, Chief Content Officer, CyberRisk Alliance. "The 2027 program continues that work by honoring the teams, companies, and leaders delivering measurable outcomes in a field where trust, execution, and evidence matter."

The SC Awards are designed to highlight cybersecurity achievement across both technology and leadership categories. Nominations are open to organizations and individuals whose products, programs, services, or leadership have helped advance the practice of information security.

Entries will be reviewed through a practitioner-led judging process focused on real-world impact. Judges will evaluate nominations based on the clarity of the problem addressed, the strength of the approach, evidence of effectiveness, repeatability, scalability, and business impact.

"The strongest SC Awards entries show more than innovation," Damore added. "They show what changed for customers, security teams, users, and organizations because of the work being recognized."

Finalists and winners will be featured across SC Media editorial coverage and CyberRisk Alliance channels, giving honorees visibility with cybersecurity practitioners, executives, buyers, and industry stakeholders. Additional program details, including categories, deadlines, judging

information, and entry guidance, will be available when nominations open.

Nominations for the 2027 SC Awards open October 6, 2026. To learn more and prepare to submit, visit www.scworld.com/sc-awards.

About the SC Awards

The SC Awards recognize the solutions, organizations, and leaders advancing cybersecurity. Now entering its 30th year, the program honors achievement across information security, including technology, services, leadership, innovation, and measurable security outcomes.

About CyberRisk Alliance

CyberRisk Alliance provides business intelligence that helps the cybersecurity ecosystem connect, share knowledge, accelerate careers, and make smarter, faster decisions. Through its trusted information brands, network of experts, and more than 250 annual events, CyberRisk Alliance delivers actionable insights and serves as an extension of cybersecurity marketing teams. Its brands include SC World, the Official Cybersecurity Summits, Identiverse, InfoSec World, CyberRisk Collaborative, Security Weekly, ChannelPro, ChannelE2E, MSSP Alert, ExecWeb, LaunchTech Communications, and CyberRisk TV.
