

Y8 Games Unveils New Site Design - Features Thousands of Online Games

/EINPresswire.com/ Today, [Y8.NET](#), also known as [Y8 Games](#), has unveiled its new web site design. The new design does not only improve all visible aspects of the site, but also improves the overall gaming experience and usability aspects.

At [Y8 Games](#), gamers will find the latest, best and also most exciting games available on the internet. Unlike many gaming sites, Y8 Games does not focus solely on generating as much income as possible, but to deliver the latest games, while making sure the user experience is the main reason why gamers are choosing Y8.NET over other online games sites.

"Most online gaming websites are created for one reason: To generate income for the companies behind it. Unlike such sites, Y8 Games goes a different path and ensures gamers enjoy a very friendly gaming environment where they can play online games without being tricked into clicking ads. Simply put, when gamers play games on Y8.net, they can be sure that what they see is what they get - no tricks attached," Bob Charania, public relations manager said.

Many users don't know that most gaming websites require additional plug-ins such as Java to play games. Y8 Games is different, as the site does not require a user to install any plug-ins. The only requirement is having the latest Flash player installed, which comes pre-installed with most web browsers already. There is also no need to sign up to play games. Gamers can simply browse the games, select one they want to play and the fun can start.

Recently, Y8 Games reached their 10000 "Likes" milestone on Facebook. Y8 Games has also announced to launch their Twitter stream within the next few days. Their Twitter stream will feature randomly selected games that can be played at Y8.NET.
