

# Toyota Avalon Hybrid Named 'Best Green Car' at 2013 Atlanta International Auto Show

/EINPresswire.com/ Premiere [South Florida Toyota](#) dealership Toyota of Hollywood is pleased to announce that the all-new Toyota Avalon Hybrid was named the "Best Green Car" at the 2013 Atlanta International Auto Show by the Greater Atlanta Automotive Media Association (GAAMA).

Premiere South Florida Toyota dealership Toyota of Hollywood is pleased to announce that the all-new Toyota Avalon Hybrid was named the "Best Green Car" at the 2013 Atlanta International Auto Show by the Greater Atlanta Automotive Media Association (GAAMA).

For four years, the GAAMA has been awarding "best of show" vehicles. Davis Adams, president of GAAMA said, "The Avalon is an impressive option in the green car category, with size, luxury and fuel efficiency that make it a standout in a segment otherwise crowded with smaller economy cars."

The Avalon's Hybrid Synergy Drive uses a 2.5-liter four-cylinder engine that employs the Atkinson cycle to postpone closure of the intake valves and delay the compression cycle, helping reduce intake and exhaust energy losses to improve fuel efficiency. Reduced weight, clean aerodynamics and an efficient Hybrid drivetrain combine to give this sedan a combined 40 mpg EPA-rating (40 city/39 hwy). Taking the Avalon's 17-gallon fuel tank into consideration, the Avalon Hybrid can offer a range of more than 600 miles per tank.

Designed, developed and assembled in the U.S., the new Avalon Hybrid shares the same passionate styling, innovation, and an elevated level of craftsmanship as the gas-only Avalon. So far, the Avalon has been a hit with consumers. Toyota's flagship sedan saw its sales increase by 63 percent in February, with sales of 5,703 Avalons over the month.
