

FirstLight Power Resources signs with Adept Technologies to provide a hosted Shoreline Management solution

/EINPresswire.com/ New York, NY, March 29, 2013 – [Adept Technologies Inc.](#), the foremost developer of automated Shoreline Permit Management software for hydro-power producers announced today that FirstLight Power Resources LLC, a major New England hydro-power provider, selected Adept to upgrade their Shoreline Management operations. [Adept will host a secure](#) implementation of their innovative [Adept Enterprise Shoreline](#) permit management system for FirstLight.

Brian Wood, Land Manager at FirstLight, stated that "We'd been scoping a digital upgrade of our Land Management Department Shoreline Permit System for over three years and with Adept Technologies, we are now confident that we will accomplish our mission. Adept was quick to understand our processes and needs and proposed a customized, unique solution that far exceeds our expectations. Adept Technologies' staff is the most knowledgeable, experienced, innovative and flexible that we have encountered during our selection process. They are welcome business partners and we look forward to forging a lasting relationship with them."

Edward Kohtio, Adept Technologies' Managing Director stated that "Adept Enterprise Shoreline Management® is the only mature product on the market designed for compliance with FERC regulations that is custom tailored to the needs of each of our hydropower clients. Adept Technologies is uniquely positioned to address FirstLight's requirements, hosting a secure, turn-key Shoreline Permit Management and Tracking solution for them. We are very pleased with FirstLight's decision. Our years of experience working with Energy clients make us confident that we will soundly deliver on their investment. We look forward to a long term partnership with FirstLight Power Resources, Inc."

Adept Technologies Inc. is a privately-owned U.S. software development corporation founded in 2001, headquartered in New York, NY, with a regional office in Tallahassee, FL and technology centers in Bethlehem, PA and St. Louis, MO.
