ORANGE PARK, FL, UNITED STATES, September 29, 2026 / EINPresswire.com/ -- Miller's Automotive Celebrates Grand Opening at Larger Orange Park Facility

ORANGE PARK, Fla. — September 2026 — Miller's Automotive has officially opened its doors at a new, larger location. The move marks a milestone for the independent auto repair shop as it continues to grow within the community it has served since 2001. The new facility gives Miller's Automotive a more visible location designed to accommodate a growing customer base. It also maintains the same standard of service the shop has built its reputation on.

The expanded facility supports the equipment and technology the team relies on daily. This includes Autel MaxiSYS MS906 Pro diagnostics and a Hawkeye Alignment Machine. The shop also provides high-demand services such as engine diagnostics, radiator repair, and brake repair in Orange Park. These services are backed by digital vehicle inspections with photos that help customers understand exactly what their vehicle needs before work begins.
